County promises and covenants to make its best efforts to appropriate funds in accordance with this Agreement. Such certificates shall provide that the applicable insurance policies have been endorsed to provide a minimum of thirty days advance notice to the County in the event of cancellation, non-renewal, or reduction in limits by endorsement.

14. **Term.** The term of this Agreement shall commence January 1, 2023, and shall continue until December 31, 2023, unless sooner terminated pursuant to paragraph 8, 15, or 19 hereof. If this Agreement is terminated by either party, the County shall pay only for those services actually performed by Organization as verified by the County's audit.

15. **Termination.** This Agreement may be terminated for any reason or no reason by either of the parties upon thirty (30) days' written notice to the other party's designated fiscal representative. Date Program was Initiated: 2022

What time period does this program run: All Year

Provide program description: Adolescent Urgent Care Clinic (AUCC) provides crisis stabilization and respite services for children and adolescents ages five to 24 years and their families, regardless of catchment area and without a need for a referral or to make an appointment. The AUCC will provide immediate access to respite, medication, and long-term behavioral health treatment services. These services can be used either as a means of immediate psychiatric care rather than long-term residential hospitalization or as an interim gap service until families connect to long-term outpatient services.

Describe the benefits of this program to Jackson County Missouri: This program benefits Jackson County in three ways. First, this program provides 24/7 access to youth behavioral health services. Time is of the essence, and there is no way to pre-plan for crises. Second, this program provides crisis care, medication management, case management, and respite services to children and adolescents, services not currently available 24/7 for youth in the county. Third, this program increases access for low-income families who shouldn't have to choose between food, housing, and behavioral health care — all areas which support the ability of families to thrive.

Describe target population to be served: ReDiscover's target population for this project is youth 5-24 years old in Jackson County, most commonly residents of Raytown, Lee's Summit, Kansas City, and Grandview. Over 80% of youth are at or below the federal poverty level. Over one-third (37%) are youth of color, and all are experiencing behavioral health issues or crisis situations which need immediate assistance. Diagnoses are most commonly depression, anxiety, conduct disorders, and attention-deficit/hyperactivity disorder (ADHD).

What are the qualifications for participants: Families and caregivers will primarily learn of AUCC when they begin experiencing a behavioral health crisis. Youth will be referred by hospital EDs, first responders (police, firefighters, emergency medical technicians), other health and/or behavioral health care providers, schools, 988 suicide and crisis lifeline responders, and court systems. These referrals will help provide appropriate services at the right time to reduce the need for more intensive and costly services, including jail or residential settings.

Check if your services are available to anyone:

How do you maintain a database of participants: ReDiscover uses the CareLogic electronic medical record (EMR) system to record and store all client and program level data.

Number of participants from Jackson County: 1650

Number of participants from Other Areas: 100

Total Number of participants: 1750

Identify the community need for your organization's program and services in Jackson County.

Jackson County is experiencing a pediatric behavioral health crisis with increased suicide, emergency room visits, depression, and anxiety. The hospital emergency departments and residential treatment facilities have inadequate beds, and many organizations serving low-income families are experiencing provider shortages. These underserved families need access to stabilizing resources that prevent long-term residential care and are accessible whenever crises happen.
