REQUEST SUMMARY

R20435 authorized the Director of Public Works to sign documents related to storm water grants offered by Missouri Department of Natural Resources. Morris Culvert was one project included on the list for this grant.

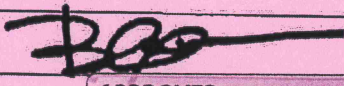

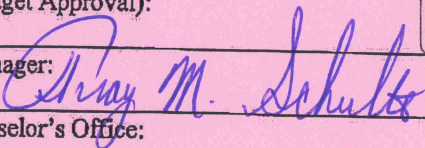

The Department of Public Works has planned and budgeted for the removal and replacement of an existing box culvert with a newly constructed single-cell reinforced box culvert along with any ancillary construction activities. The Public Works Department prepared plans, specifications and documents to accomplish the work. An MDNR stormwater grant application was completed for the project, which would reimburse the county 50% of the total project construction cost. Advertisement was posted in the Daily Record, bidding information was posted on "Public Purchase" Website and mailers were sent to contractors and other interested parties. Sealed proposals were opened on October 19, 2020 at the offices of Public Works with 6 bidders responding.

A detailed bid tabulation is attached. A summary of the bids is as follows: AS READ
