DEPARTMENT: IT/GIS Department

TITLE: A RESOLUTION authorizing the Director of Finance and Purchasing to execute a 1-year renewal with a one-year option to extend to the term and supply contract with Remy Corporation of Denver, CO, for the furnishing of Workday professional services for use by the Information Technology Department, under the terms of State of Oklahoma contract No. SW1025, a competitively-bid government contract.

SUMMARY: BACKGROUND - On January 17, 2023, the Jackson County Legislature authorized a twelve-month term and supply contract with Remy Corporation, with a twelve-month option to extend, for the furnishing of professional services in support of the ongoing maintenance, configuration, optimization, and enhancements of the County's Workday Enterprise Resource Planning platform. The contract was authorized under the terms and conditions of State of Oklahoma Contract No. SW1025, an existing competitively-bid government contract. The State of Oklahoma Contract No. SW1025 was awarded October 1, 2023 and has been extended through September 30, 2028. Master Service Agreement is attached.

On July 29, 2024, the County Legislature authorized two additional twelve-month extensions to the term and supply contract. The IT/GIS Department now seeks approval to renew and extend the agreement to continue access to Remy Corporation's Workday professional services, which support critical enterprise business functions including human resources, payroll, finance, reporting, integrations, system configuration, and ongoing Workday platform maintenance.

ACQUISITION FROM ANOTHER GOVERNMENT JUSTIFICATION - The IT/GIS Department recommends renewal of the Remy Corporation term and supply contract through State of Oklahoma Contract No. SW1025 pursuant to Jackson County Code Chapter 10, §1030.2 for the following reasons: **A. Existing Competitively-Bid Government Contract** - State of Oklahoma Contract No. SW1025 is an existing government contract that was competitively solicited and awarded by another governmental entity. Use of this contract allows Jackson County to obtain the required professional services through an established public procurement vehicle without duplicating a separate solicitation process. Leveraging the State of Oklahoma contract promotes procurement efficiency while maintaining the benefit of pricing and terms established through a competitive government procurement process.

B. Continuity of Workday Support Services - Remy Corporation has provided professional services supporting the County's Workday ERP platform since the original authorization of the contract in 2023. The County's Workday environment is a complex enterprise system supporting payroll, human resources, finance, timekeeping, reporting, integrations, and other core business functions. Continued use of Remy Corporation preserves institutional knowledge of the County's Workday configuration, business processes, integrations, reporting requirements, security roles, and operational priorities. Transitioning to another provider at this stage would require onboarding, knowledge transfer, discovery, and re-validation of existing configurations, which could delay critical support work and increase operational risk.

C. Cost and Administrative Efficiency - Renewal under State of Oklahoma Contract No. SW1025 allows the County to continue obtaining Workday professional services under a competitively-bid government contract rather than expending additional time and resources to conduct a separate County solicitation for substantially similar services. The use of this contract is expected to provide pricing and contract terms that are advantageous to the County when compared with obtaining comparable services outside an established government contract vehicle. This approach reduces administrative burden, avoids duplicative procurement activity, and supports timely continuation of services needed by the IT/GIS Department and County departments that rely on Workday.

D. Operational Need and Risk Avoidance - Workday is a mission-critical enterprise platform for Jackson County. The availability of qualified professional services is necessary to support ongoing maintenance, issue resolution, configuration changes, enhancements, reporting, integrations, and compliance-related updates. A lapse or disruption in professional services could affect payroll processing, financial operations, employee data management, reporting, and other essential County functions. Continuing the existing Remy Corporation contract minimizes disruption and provides a practical path for maintaining stable Workday operations.

E. Compliance with Jackson County Code Chapter 10, §1030.2 - Jackson County Code Chapter 10, §1030.2 permits acquisition from another government without competitive bidding when the items or services to be purchased can be obtained from another government at a price below that quoted by a private vendor. Because the requested renewal is being made under State of Oklahoma Contract No. SW1025, a competitively-bid government contract, the IT/GIS Department recommends that the Director of Finance and Purchasing submit the renewal to the County Legislature for approval and set out the reasons for not seeking separate competitive bids, as required for purchases exceeding \$25,000. **RECOMMENDATION** - Based on the foregoing justification, the IT/GIS Department recommends approval of a renewal and extension to the term and supply contract with Remy Corporation of Denver, Colorado, for the furnishing of professional services for use by the IT/GIS Department, under the terms and conditions of State of Oklahoma Contract No. SW1025, an existing competitively-bid government contract, pursuant to Jackson County Code Chapter 10, §1030.2, Acquisition From Other Government.
