CONTRACT CONDITIONS - PAGE 2

IN ORDER TO RECEIVE FEDERAL FUNDING, THE GRANTEE AGREES TO COMPLY WITH THE FOLLOWING CONDITIONS IN ADDITION TO THOSE OUTLINED IN THE NARRATIVE OF THE CONTRACT.

I. **RELATIONSHIP:** The relationship of the Grantee to the Missouri Highways and Transportation Commission (MHTC) shall be that of an independent contractor, not that of a joint enterpriser. The Grantee shall have no authority to bind the MHTC for any obligation or expense without the express prior written approval of the MHTC. This agreement is made for the sole benefit of the parties hereto and nothing in the Agreement shall be construed to give any rights or benefits to anyone other than the MHTC and the Grantee.

II. EQUIPMENT

A. **PROCUREMENT:** Grantees may use their own procurement regulations which reflect applicable state/local laws, rules & regulations provided they adhere to the following:

1. Equipment with a cost of \$3,000 or more must be purchased on a competitive bid basis, or purchased through use of state cooperative procurement;
2. Price or rate quotations shall be solicited from at least three (3) qualified sources;
3. All procurement transactions, regardless of whether by sealed bids or by negotiation, shall be conducted in a manner that provides maximum open and free competition;
4. Grantees shall have a clear and accurate description of the item to be purchased. Such description shall not, in competitive procurements, contain features that unduly restrict competition. A "brand name or equal" description may be used as a means to define the performance or other requirement of a procurement;
5. If for some reason the low bid is not acceptable, the Grantee must have written approval from the MHTC prior to bid approval and purchase.
6. Grantees will make a good faith effort to utilize minority and women owned businesses within resource capabilities when procuring goods and services.

B. **DISPOSITION:** The Grantee shall make written request to the MHTC for instructions on the proper disposition of all items of equipment provided under the terms of this contract.

C. **REPLACEMENT:** No equipment may be funded on a replacement basis. Participation in equipment and manpower projects must be in addition to the grantee's previous twelve months authorized strength.

III. FISCAL RESPONSIBILITY

A. **MAINTENANCE OF RECORDS:** The Grantee agrees that Missouri Department of Transportation (MoDOT) Traffic and Highway Safety (HS) Division, the National Highway Traffic Safety Administration (NHTSA), the Federal Highway Administration (FHWA) and/or any Federal audit agency with jurisdiction over this program, the Auditor of the State of Missouri or any of their duly authorized representatives may have access, for purpose of audit and examinations, to any books, documents, papers or records maintained by the Grantee pertaining to this contract and further agrees to maintain such books and records for three years after the date of final project disposition.

B. REIMBURSEMENT VOUCHER, SUPPORTING

DOCUMENTATION AND PAYMENT SCHEDULE: The MHTC agrees to reimburse the Grantee for accomplishment of all authorized activities performed under this contract. Reimbursement proceedings will be initiated upon the receipt of a claim voucher and supporting documentation from the Grantee, as required by the MHTC. The voucher must reflect actual costs and work accomplished during the project period, to be submitted on the appropriate MHTC form or in a format approved by the MHTC, and shall include project number, project period, hours worked, rate of pay, any other allowable expenditures, and must be signed by the contracting official. Vouchers should be received by the MHTC within ten (10) working days from the date of the authorizing official/project director's signature. Final payment is contingent upon receipt of final voucher. **AUDITS:** Grantee will be responsible for the required supporting documentation no later than 30 days after the end of the contract period.

C. **OMB AUDIT:** If the Grantee expends five hundred thousand dollars (\$500,000) or more in a year in federal financial assistance it is required to have an independent annual audit conducted in accordance with OMB Circular A-133. A copy of the Audit report shall be submitted to MoDOT within the earlier of thirty (30) days after receipt of the auditor's report(s), or nine (9) months after the end of the audit period. Subject to the requirements of OMB Circular A-133, if the Grantee expends less than five hundred thousand dollars (\$500,000) a year, the Grantee may be exempt from auditing requirements for that year, but records must be available for review or audit by applicable state and federal authorities. Failure to furnish an acceptable audit may be basis for refunding federal funds to MHTC. Cost records and accounts pertaining to the work covered by this contract shall be kept available for inspection for representatives of MHTC for a period of three (3) years following date of final payments. Copies of such records shall be made available upon request.

IV. **TERMINATION:** If, through any cause, the Grantee shall fail to fulfill in timely and proper manner its obligation under this contract, or if the Grantee shall violate any of the covenants, agreements or stipulations of this contract, the MHTC shall thereupon have the right to terminate this contract and withhold further payment of any kind by giving written notice to the Grantee of such termination and specifying the effective date thereof, at least thirty (30) days before such date. The MHTC shall be the sole arbitrator of whether the Grantee or its subcontractor is performing its work in a proper manner with reference to the quality of work performed by the Grantee or its subcontractor under the provisions of this contract. The Grantee and the MHTC further agree that this contract may be terminated by either party by giving written notice of such termination and specifying the effective date thereof, at least thirty (30) days before such date.

PROBLEM IDENTIFICATION

Alcohol and other drugs contribute substantially to traffic crashes on Missouri's roads, especially those resulting in death or disabling injury. In the 2009-2011 period, 447,397 traffic crashes occurred in the State. Of those, 0.5% resulted in a fatality and 3.2% involved someone being seriously injured. During the same time period, there were 21,947 traffic crashes where one or more drivers and/or pedestrians were under the influence of intoxicants and in the opinion of the investigating officer their intoxicated condition was a contributing factor to the crash. In these crashes where drivers or pedestrians were impaired by alcohol or other drugs, 755 people were killed and another 3,051 were seriously injured. According to the STARS reporting for Jan 1, 2010 to June 30, 2012 Jackson County has been rated 2nd in Traffic Crashes where drinking was involved with 1780. 2nd also where those crashes resulted in 29 lives lost. Four of our major cities (Kansas City, Independence, Lee's Summit and Blue Springs) are ranked in the top 9 for Drinking Involved Traffic Crashes accounting for 21% of the Crashes in the entire state of Missouri. That is 1/5th of the Crashes taking place in 1 of the 115 counties (inc. St. Louis City) in Missouri. Jackson County pulls ahead of St. Louis County making us 1st in the listing for Major Disabling Drinking - Involved Crashes. There are 10 agencies involved in the Jackson County Traffic Safety Task Force that when combined show 176 major disabling crashes where drinking was involved.

With the closeness of such a variety of activities throughout Jackson County, there will continue to be a need for the increased presence of law enforcement to alter driving behavior and to apprehend those who make the bad choice to get in their vehicle and drive impaired.

Within a brief period of time this past year the DWI/Traffic Safety Unit had (3) three vehicles involved in crashes. The Fleet Manager believes the Tahoe is repairable (although nothing has been done as yet.) But the (2) two Crown Vics are beyond repair. The (2) two Crown Vics were involved in a DWI stop where the Deputies had just finished processing the arrestee, when another driver operating his motor vehicle impaired, crashed into the patrol units. Had there only been the one vehicle at this stop, all of the force would have been taken by the vehicle the one deputy and the arrestee were occupying, leading to the possibility of serious injury or a fatality. Fortunately there were no serious injuries. We are waiting for the insurance to respond for replacement of the vehicles and the LPR equipment that was also destroyed, but given the age of the vehicles and the mileage, the value of the vehicles is decreased. There are currently (2) two of the original vehicles (purchased by MoDOT at the conception of the Traffic Unit) still in use. The remainder of the vehicles used by the Unit are the higher mileage older vehicles from the Sheriff's Fleet. With the DWI Traffic Safety Unit not being limited to an assigned District, as the Patrol Units are, they travel the entire county.

With the inclement weather this winter and the high volume of snow, the Unit along with the Patrol Deputies have had to resort to doubling up and driving the Sheriff's Office service and maintenance trucks.

GOALS/OBJECTIVES

Goal:

To decrease fatalities involving drivers with .08 BAC or greater by 2% annually to:

- 253 by 2011
- 248 by 2012
- 243 by 2013
- 238 by 2014

Objectives:

1. Participate in the National Impaired Driving Crackdown campaign
2. Participate in the quarterly impaired driving enforcement campaigns
3. Develop and implement a high visibility DWI enforcement plan involving saturation patrols and/or sobriety checkpoints
4. Targeted population - Impaired drivers.
5. Enforcement locations - Target roadways which Missouri STARS data indicates as crash sites corridors and areas where multiple impaired driving violations occur. Including but not limited to US 24 and 40 Hwy in and around Independence, major streets in Kansas City (77th/Wornall, Independence Ave/Monroe) and I 435 and 70.
6. Time of Enforcement - Currently STARS crash data supports the hours of enforcement as 6:00pm to 4:00am.
7. Duration of each enforcement - 10 hour shifts.
8. Days of the week selected for enforcement periods - To be used for Deputies regular shift hours, Overtime Enforcement and other Sheriff's Office approved activities.
9. Months - Year round
10. Equipment, promotional or supplies items requested - Dodge Charger and Chevy 4 wheel drive Tahoe
11. Additional projects description narrative:
 - a. DWI Patrols -using resources of and participating with the Jackson County Traffic Safety Task Force, as well as overtime monitoring of Impaired Drivers.
 - b. Sobriety Checkpoints - participating with other Jackson County agencies in their communities/cities through mutual agreement through the Jackson County Traffic Safety Task Force.
 - c. The use of Sobriety Checkpoints and the concentration of law enforcement vehicles is a highly visible means of educating the general public of our goal to remove Impaired Drivers from our roadways.
 - d. With the addition of newer vehicles to the DWI Unit - to provide a safer, more reliable transportation for the Deputy.

The following information explains the strategies your agency will use to address the traffic crash problem. This information is considered to be the Project Description and should be specific to the crash problem.

- 31 Identify the primary enforcement locations.

DWI Traffic Safety Unit is not assigned to any specific District (like the Patrol Units are). They can be used throughout the county as crash data supports and the Sheriff requires. Crash data supports that the emphasis should be on the city streets in Kansas City in areas of Westport, Power and Light, Wornall/77th, and along the major roadways: I 70, 470, US 40, 71 and Mo 291, 7.

- 32 Enter the months in which enforcement will be conducted.

All months as this is a full time unit.

- 33 Enter the number of enforcement periods your agency will conduct each month. 16

- 34 Enter the days of the week in which enforcement will be conducted.

Currently the Unit works enforcement Monday - Thursday on regular 10 hr shift. with the option of working Friday and Saturday night as DWI Grant Overtime.

- 35 Enter the time of day in which enforcement will be conducted.

Currently the Unit works 1 Sgt and 1 Deputy on the 6 am to 4 pm, 3 Deputies on the 6pm to 4 am with the option of Friday and Saturday night 11 pm to 3 am on DWI Grant Overtime

- 36 Enter the number of officers assigned during the enforcement period. 5

- 37 If equipment, promotional items, or supplies are requested to conduct this project, explain below why it is needed and how it will be used.

We are requesting 2 new vehicles to be assigned to the DWI Unit for use in the nightly DWI enforcement of the Unit during shift hours, DWI, HMV Enforcement and for Sheriff's Office approved activity. Due to recent crashes, there are fewer vehicles to use as backup vehicles to assign out. Realistically even if the insurance pays out to replace the 2 crashed vehicles the used car value will not adequately cover the purchase of 2 replacement vehicles. We are not certain how long of a period of time will need to elapse before a settlement is reached to provide the replacements. We are requesting the Tahoe be equipped with 4 wheel drive to accommodate the future winter weather emergency situations that have interfered with the task of our goal to remove impaired drivers, even in the winter.

PROJECT EVALUATION

The MHTC will administratively evaluate this project. Evaluation will be based, at a minimum, upon the following:

1. Law enforcement compliance with state UCR, Racial Profiling, and STARS reporting requirements (law enforcement contracts only)
2. Timely submission of monthly reimbursement vouchers and appropriate documentation to support reimbursement for expenditures (i.e., personal services, equipment, materials)
3. Timely submission of periodic reports (i.e., monthly, quarterly, semi-annual) as required
4. Timely submission of the Year End Report of activity (due within 30 days after contract completion date)
5. Attaining the Goals set forth in this contract*
6. Accomplishing the Objectives* established to meet the project Goals, such as:
 - Enforcement activities (planned activities compared with actual activities)
 - Programs (number and success of programs held compared to planned programs, evaluations if available)
 - Training (actual vs. anticipated enrollment, student evaluations of the class, student test scores on course examinations, location of classes, class cancellation information)
 - Equipment purchases (timely purchase of equipment utilized to support and enhance the traffic safety effort; documentation of equipment use and frequency of use)
 - Public awareness activities (media releases, promotion events, incentive items or education materials produced or purchased)
 - Other (any other information or material that supports the Objectives)
7. The project will be evaluated by the Traffic and Highway Safety Division through annual crash analysis.

Evaluation results will be used to determine:

- The success of this type of activity in general and this particular project specifically;
- Whether similar activities should be supported in the future; and
- Whether grantee will receive funding for future projects.

*Evaluation and requests to fund future projects will not be based solely on attaining Goals and/or Objectives if satisfactory justification is provided.
