

JACKSON COUNTY DETENTION CENTER

INDUSTRY DAY INVITATION

INDUSTRY DAY

Jackson County invites you to learn more about the multi-phase plan to support the planning, design, construction, and activation of the new Jackson County Detention Center.

Designed to meet the community's needs by offering a jail facility that is safe, secure, and efficient to operate, the new detention center will incorporate thoughtfully designed long-term solutions for the Jackson County Justice System.

This meeting will provide an opportunity for design and construction professionals to learn more about the project. The program will include an overview of the project, the proposed site, and delivery method for the new facility. Details regarding the design criteria, schedule for the project, and M/WBE goals will be shared, followed by a Q&A session.

PLEASE JOIN US FOR THIS INFORMATIVE FORUM:
