14. **Term**. The term of this Agreement shall commence January 1, 2020, and shall continue until December 31, 2020, unless sooner terminated pursuant to paragraph 8, 15, or 19 hereof. If this Agreement is terminated by either party, the County shall pay only for those services actually performed by Organization as verified by the County's audit.

County written materials of any kind must be delivered and returned by Organization to the County within ten (10) days of the termination of this Agreement.

Date Program was Initiated: 2010

What time period does this program run: All Year

Provide program description: As partners in the AIDS Service Organization (ASO) Collaboration, Kansas City CARE Clinic dba KC CARE Health Center (KC CARE) and Thrive Health Connection provide services for HIV-positive individuals and those at risk for HIV infection. KC CARE will serve as the lead agency providing grant administration. KC CARE will provide HIV-prevention education for both HIV-positive and negative individuals, risk-reduction tools and strategies, HIV testing for those at high risk for exposure to HIV and AIDS, and linkage to medical care for positive individuals. KC CARE provides services and interventions at our four locations and through community outreach efforts including Kansas City's Pride Festival, AIDS Walk, and Women of Color Leadership Conference. Thrive Health Connection will provide HIV/STD risk-reduction counseling and HIV testing as well as emergency assistance for clients who are HIV-positive and homeless or at imminent risk of becoming homeless.

Describe the benefits of this program to Jackson County Missouri: Critical components of the health, wellness, and productivity of Jackson County's residents are HIV prevention, care, and support services. These services are vital to the mission of both ASO service organizations included in this grant. KC CARE has provided a continuum of HIV services to the community since the 1980s, emphasizing education, prevention, and care. We recognize that a care and prevention focus is crucial to creating a healthier community. Thrive Health Connection was founded in 1985 as the Good Samaritan Project in response to the AIDS epidemic. Thrive continues to provide advocacy, education, and services to those impacted by HIV/AIDS in Jackson County, Mo.

Describe target population to be served: Jackson County residents who are either infected with HIV/AIDS or who are at high risk for contracting HIV/AIDS are the target population of the ASO collaboration in Jackson County, Mo. The programs focus on at-risk populations identified in the most recent Kansas City Regional Prevention and Care Plan and includes the following groups: African American, White, and Latino men who have sex with men (MSM); African American women; and Latino women. Increasing rates of HIV/AIDS among young MSM of color are of particular concern. The target population also includes individuals who are homeless or in substance abuse treatment centers, correctional facilities, and domestic violence shelters. Regarding indigent people served by the program, KC CARE serves those at risk of HIV infection, but it does not track income level for prevention and testing services. Thrive Health Connection does not track income for clients served by prevention and testing services, although all case management clients are within 300% of the federal poverty level.

What are the qualifications for participants: Participant qualifications vary by ASO. KC CARE and Thrive do not have specific criteria for prevention and outreach efforts; these services are generally targeted to communities vulnerable to HIV infection. Testing efforts will be targeted to those clients considered high risk. KC CARE's group and community-based interventions are also designed to target specific high-risk groups including MSM, African American women, and youth. Thrive clients who demonstrate financial hardship, are HIV-positive, and are receiving case management services are eligible to receive emergency assistance funding.

Outcome: Thrive Health Connection will provide HIV counseling and testing for at least 700 individuals at high risk for HIV/AIDS and emergency assistance for at least 100 HIV+ clients enrolled in case management services.

How will outcome be measured: HIV is tracked in an Access database and progress is evaluated monthly. Emergency assistance is tracked using internal processes and an Excel spreadsheet. Progress is evaluated monthly.
