

Unity Day is a powerful and uplifting event honoring families who have worked tirelessly toward successful reunification after their children were placed in foster care.

Unity Day is more than a celebration, it is a testament to resilience, healing, restoration, and the strength of families and community support.

This special gathering will recognize parents, children, family, caregivers, advocates, and community partners who have walked the challenging journey toward reunification and emerged stronger together.

Celebrating parents who have navigated court-mandated programs to overcome challenges like substance abuse, homelessness, or severe financial hardships.

Providing a festive atmosphere with food (like hot dogs and treats), activities like balloon animals and face painting, and connections to community resources like library services.

Demonstrating that the family court system is designed to help keep families safely together rather than tear them apart, while offering hope to other parents currently in the court system.

The event connects attendees with essential community resources, including library services and local support programs.
