

Jackson County Department of Corrections
MEMO

To: John Konon
CC: Craig Mosher, John Konan
Date: 10/22/2025
From: Deloris Wells- Deputy Director of Administration
Subject: Sole Source

Sole Source Justification

Vendor Name: Precision Dynamics Corporation
Product: Clincher Identification Wristbands and Supportive Equipment
Estimated Annual Expenditure: \$20,000.00

Due to the increasing number of admissions to the Jackson County Detention Center (JCDC), there is an ongoing and essential need to purchase more than \$5,000 annually in “Clincher” identification wristbands and the required supportive equipment for inmate identification and management. All inmates are required to wear wristbands at all times for identification, security, and operational purposes.

The current system—including PC programming, printers, and laminators—is fully configured and operational exclusively with Precision Dynamics’ “Clincher” identification wristbands. Transitioning to a different brand or supplier would require costly replacement of existing hardware, reprogramming of systems, and additional staff training, resulting in operational disruption and potential security risks.

Given these operational requirements and the proprietary nature of the equipment in use, **Precision Dynamics Corporation is the only known vendor capable of providing compatible wristbands** for our existing inmate identification system. Therefore, we respectfully request that Precision Dynamics be considered a **sole source vendor** for the continued supply of “Clincher” wristbands for the inmate population at JCDC.

Thank you for your consideration.
D. Wells
