Provide program description: PPGP requests salary support funding to help us continue to provide high quality and affordable healthcare. In addition to sexual and reproductive healthcare services, our health centers also offer primary care services, including management of chronic conditions, and urgent care services, such as treatment for sinus infections. Providing these services in one visit and all under the same roof allows our patients to successfully maximize their healthcare, which removes many barriers to healthcare our community members experience. These barriers include cost, travel, and childcare.

Describe the benefits of this program to Jackson County Missouri: ? By ensuring our community members have consistent access to affordable and accessible healthcare services, we are able to reduce poor health outcomes, which can contribute to lower life expectancy, decreased quality of life, and loss of economic opportunity. Additionally, we work to empower patients to make informed decisions regarding their reproductive healthcare futures. All of this works in tandem to create a healthier future for all in Jackson County.

Describe target population to be served: Across our four state affiliate, we provided care to 34,245 patients across 51,344 visits during FY22; of these patients, 69% were under or uninsured and 34% self-identified as BIPOC. In Jackson County, our team provided care to 7,124 patients across 9,419 visits during FY22; of these patients, 59% were under or uninsured and 29% self-identified as BIPOC. In FY23, we are on track to have comparable patient volume and demographic makeup.
