PROBLEM IDENTIFICATION

Alcohol and other drugs contribute substantially to traffic crashes on Missouri's roads; especially those resulting in death or disabling injury. In the 2009-2011 period, 447,397 traffic crashes occurred in the State. Of those, 0.5% resulted in a fatality and 3.2% involved someone being seriously injured. During the same time period, there were 21,947 traffic crashes where one or more drivers and/or pedestrians were under the influence of intoxicants and in the opinion of the investigating officer their intoxicated condition was a contributing factor to the crash. In these crashes where drivers or pedestrians were impaired by alcohol or other drugs, 755 people were killed and another 3,051 were seriously injured. According to the STARS reporting for Jan 1, 2010 to June 30, 2012 Jackson County has been rated 2nd in Traffic Crashes where drinking was involved with 1780. 2nd also where those crashes resulted in 29 lives lost. Four of our major cities (Kansas City, Independence, Lee's Summit and Blue Springs) are ranked in the top 9 for Drinking Involved Traffic Crashes accounting for 21% of the Crashes in the entire state of Missouri. That is 1/5th of the Crashes taking place in 1 of the 115 counties (inc. St. Louis City) in Missouri. Jackson County pulls ahead of St. Louis County making us 1st in the listing for Major Disabling Drinking - Involved Crashes. There are 10 agencies involved in the Jackson County Traffic Safety Task Force that when combined show 176 major disabling crashes where drinking was involved.

With the closeness of such a variety of activities throughout Jackson County, there will continue to be a need for the increased presence of law enforcement to alter driving behavior and to apprehend those who make the bad choice to get in their vehicle and drive impaired.

With the increase in availability and the diversity of controlled substances comes an increase in those driving under the influence of drugs that can not be detected through BACs done on the Alco sensors to evaluate the impairment.
