TAB 4 - Pricing and Compensation Forms. The cost portion of the Response should include the following criteria:

1. Provide a Price Proposal. See attachment A.
2. Describe in detail the proposed business pricing model(s). Include all pertinent details (formulas, definitions, data, audit criteria, etc.) to explain the benefits of the proposed model. Discuss how a participating agency will be able to verify (audit) that the net pricing received conforms to the model.

We have six Business Units represented in this proposal.

1. **The Toro Commercial Division** pricing will be 21.8% off current MSRP of all wholegoods, attachments and accessories.
 - o For the City of Mesa, the Parts Program will consist of offering discounts on high usage parts such as belts, filters, tires, etc. The discount on these 'Performance Parts' varies by product group but ranges up to 50% off retail. These prices are reflected in the Parts pricing in Attachment A.
2. **The Toro Landscape Contractor Equipment (LCE) Division** pricing will be 27% off current MSRP for their landscape contractor wholegoods, attachments and accessories.
3. **The Toro Siteworks Systems Division (SWS)** pricing will be 17% off current MSRP for wholegoods, attachments and accessories.
4. **Golf Irrigation** will be 40% off MSRP for all wholegoods, attachments and accessories.
5. **Residential Commercial Irrigation** will be:
 - o **Irritrol**: 40% off MSRP on wholegoods, attachments and accessories.
 - o **Rainmaster**: 17% to 30% off MSRP on wholegoods, attachments and accessories.
 - o **ResCom** : 40% off MSRP on Wholegoods, attachments and accessories
 - o **Sentinel**: 30% off MSRP on wholegoods, attachments and accessories.
6. **BOSS**: 25% off MSRP on wholegoods, attachments and accessories

We request that our dealers and/or distributors have the ability to add attachments and accessories designed for use on Toro products but manufactured by a third party. These are items such as snow throwers, snow blades and brooms that attach to our products for use in the winter months. Each manufacturer of these products provides their own pricing, our pricing would not exceed the manufacturer list price. If there were any shipping and/or setup costs incurred by the dealer these would be added to the cost of the product.

Used and Demonstrator Equipment: Preowned and Demonstrator equipment is available from our distributors and dealers and pricing is based on Fair Market Value. The FMV of used and demo equipment is based on a combination of factors from true leasing which sets residual buyouts to hours, condition, age of equipment and current market pricing for like items. Our distributors typically publish a list of available equipment including the pricing.
