Date Program was Initiated: 2015

What time period does this program run: All Year

Provide program description: With this program at our two women's shelter we will be able to serve 200 women. Initially we provide clothing, shoes, cell phone, birth certificates, State IDS and bus passes. Our shelter provides free room and board for 90 days. Our MSW social workers very quickly begin case management to assist them obtain medical care, mental health treatment, substance abuse treatment and dental care. We provide med co-payments, dental/denture fees, prescriptions, and eye exams/glasses. We work to help them develop a goal plan and prioritize the steps to reach those goals. We provide many classes while the women reside in shelter: anger management, conflict resolution, mindfulness, self-esteem building, activities of daily living, resume building, computer classes, etc. We have pro bono lawyers that provide them with free legal advice to solve obstacles for family reunification.

Describe the benefits of this program to Jackson County Missouri: 1. Our agency is tough on crime. The agency serves approximately 2,000 individuals per year (75% male and 25% female). During the last six years, less than 5% of our clients have to prison on a new charge and/or on a technical violation of their parole. So we are making the community safer by reducing the amount of crimes committed by repeat offenders. 2. We are also helping the community reduce homelessness by stabilizing women coming out of prison for 90 days in our shelters during the most critical time when they are at greatest risk of relapse from addiction, homelessness, and critical violations of their justice related parole conditions of released. We will also provide critical services to at least 15 to 20 young children of women who have the responsibilities of child care immediately thrust upon them when they have returned to the community.

Describe target population to be served: This is a highly vulnerable population of women: 85% have severe mental illness, 90% have a history of addiction, 40% have serious disabling conditions, 35% need to obtain a GED, 10% are elderly, and 95% have experienced serious trauma and violence. The group is racially/ethnically diverse: 60% Caucasian, 20% African American, 5% Native American, 15% mixed race and 10% are Hispanic. When they first come to shelter, they lack any source of income. Ninety percent of the women are mandated to attend ReDiscover ALT Care for out-patient substance abuse treatment. During the first phase of treatment they are required to attend full-time five days per week and are mandated not to be employed. Yet they need housing, clothing, food, transportation, cell phone communication, prescriptions, mental/mental care and we provide those basics for them.

What are the qualifications for participants: They must literally be homeless women (or trans/women) in that they have no where to go for safe housing. If they remain homeless, they are subject to be directed to return to prison on a technical violation of their parole. They are prohibited from living with family/friends who are also on parole or probation or who also have a history of substance use disorder. Because we follow the "housing first" policy of HUD (i.e., housing with wrap-around services), we do not exclude women for any reason. However, our shelters are "sober houses" with random drug testing. If a woman tests positive for drugs or alcohol more than once, she will be removed from the facility but will be placed in a more appropriate setting for treatment. She will still remain eligible for our supportive services. After treatment, she may be permitted to return to our shelters.

How will outcome be measured: Results will be tracked by social workers and Certified Peer Recovery specialists and will be recorded in the Housing Management Information System.

Outcome: To increase the participants connection to the community through mentoring by Certified Peer Recovering Support persons we predict that at least 140 of the 220 participants will report an increase in involvement in community activities.
