hospital for UMKC School of
Medicine

TMC

Jackson County's Essential Hospital

- **1395** trauma visits in FY18, busiest Level 1 Trauma Center in KCMO
- Every day, TMC is changing and saving lives for patients with the most high-risk injuries

Our staff is trained to offer more extensive care to those with life-threatening injuries including traumatic car crash injuries, violent trauma, blunt trauma and brain injuries

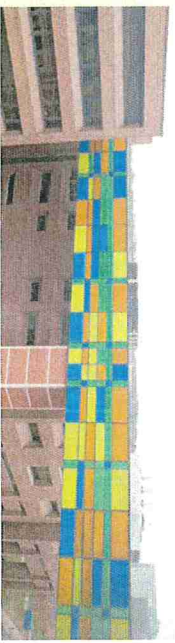

TMC

Jackson County's Essential Hospital

TMC and Children's Mercy have connected facilities and braided their expertise in perinatal diagnostics, caring for mothers before, during and after high-risk pregnancies and for newborns requiring intensive care.

TMC

- **3,428** births in FY18, nearly half of all births in Kansas City

- Level III NICU supports babies requiring intensive care

Jackson County's Essential Hospital

Taking Care to the Community

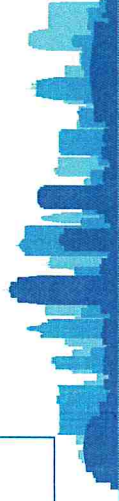

This past year, TMC partnered with the Linwood YMCA to open a fully staffed clinic in an area of Kansas City with no easily accessible primary care for its residents.

Each week, TMC takes health care information and screenings to underserved areas of the city, into schools, and to health fairs targeted at all age groups.

Throughout the year, TMC provides free dental screenings and care to local students and residents in need throughout the state

Jackson County's Essential Hospital

Caring for Jackson County Patients with Chronic and Complex Diagnoses

Patients with Chronic Disease*	HSD	LW
Asthma	6,675	2,977

What Sets TMC Apart Patient Mix

TMC

Uninsured Care (At Cost) FY 2010 to FY 2019 (\$ in Millions)

Capital Needs

Lakewood Deferred Maintenance

TMC

Capital Needs

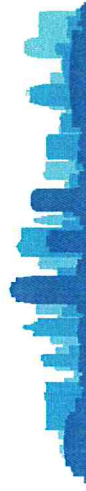

Dated facilities mean
tight quarters for babies needing intensive
care and

shared spaces for mothers

- a less sterile and family centered
experience than offered by every other
hospital in the metro.

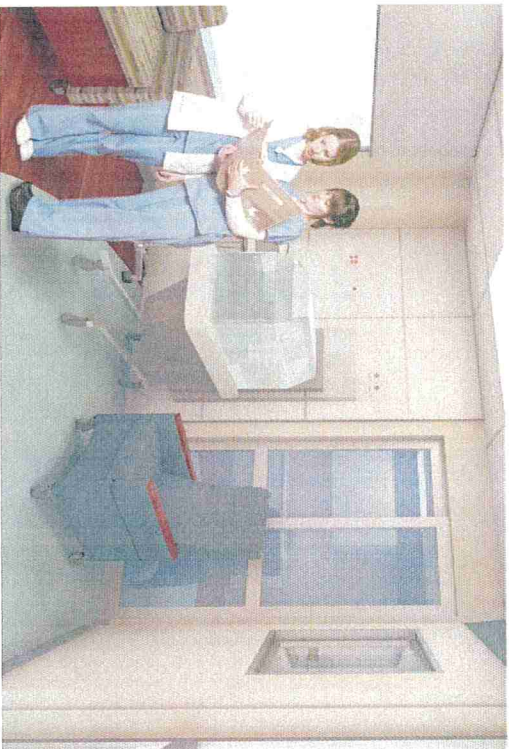

TMC is only hospital in metro where new
mothers share a room.

Capital Needs

How will TMC and Jackson County ensure quality care for the children and grandchildren of our current patients?

It is our responsibility to invest in developing the strong infrastructure, modern construction, and space creation needed to take TMC out of the past and into the future.
