- It looks like MARC is handling everything in terms of the bid prep docs, bidding, contracting, construction adm, and inspection and paying the contractors. Is that correct?
  - MARC will handle all aspect of the project from engineering and construction.
- Under Effective: There is a start date and end date in parathesis. Is there a start and end date? If so what are they?
  - Effective date is from time of signing until September 30 2024. The bulk of the program is anticipated to complete during the 2023 construction season but there may be some overlap into the 2024 season. Funds must be obligated by September 30, 2024
- It also looks like the entity will select the roads and one of the treatments and MARC will concur if it meets the criteria, then the road gets in the program. Is that correct?
  - Correct – MARC will evaluate selected routes to ensure it meets the criteria.
- No \$ out of entities pocket? MARC pays for everything out of the grant to the limit shown on the last page?
  - Correct – the program is 100% federally funded -- Jurisdiction will pay for any cost overruns or change orders that are a result of the Jurisdiction
