### Subject: Pickleball drinking station

Dear Kraig Briggs,

U.S. Engineering Service is pleased to provide a proposal for the following scope.

#### Scope of Work:

After getting locates, excavate to locate the water line traveling from the water meter to the metal building. Cut into the water line and install a connection point for the new drinking station. Set a pit for access to the valves. Continue excavation to run a 1" water line from this point to the termination point in the soccer fields to the north, running next to the south end of the gravel parking lot. Coffel Construction is going to pour the pad where the drinking station will be located. U.S. is going to run a sleeve through the pad for the water line and for the waste water to drain into. When the concrete is ready we will return and install the drinking station, turn on the water, and test operation

#### Proposed Total Pricing:

	<b>Sub Total</b>	\$0.00
	<b>Tax</b>	
	<b>Quote Total</b>	\$29,657.19

#### Included in Quote:

- The work included in this quote is limited to the specific services and materials described in the proposal.

#### Excluded from Quote:

- Additional work required due to unforeseen conditions, concealed defects, or customer-requested changes, which will be performed only upon approval and may result in additional charges.
- Unless specifically included, this quote does not include handling or remediation of **hazardous materials**, including but not limited to asbestos, lead, mold, or contaminated refrigerants. If such materials are encountered, work will stop until proper handling procedures are established.
- After-hours work unless specifically listed in the scope.
- U.S. Engineering is not responsible for valves that do not work.

## Notes and Clarifications:

- Pricing is valid for **30 days** from the date of the proposal unless otherwise stated. Prices are based on current labor and material costs and may be adjusted if the work is delayed beyond the validity period.
- Job to be completed during regular hours: 7:00 am-3:30 pm, Monday through Friday.
- Pricing is subject to parts availability and all work being done concurrently.
- Customer shall provide **safe and reasonable access to equipment and work areas** during normal working hours. Additional costs may apply if access restrictions, security requirements, or scheduling limitations delay work.
- Pricing does not include additional taxes, permits, other repairs not mentioned above, additional modifications, or any engineering not listed in the scope.

Sincerely,  
Steve Sanders

## Terms & Conditions:

This proposal is based on current pricing on materials, equipment, and other goods necessary to complete the scope of work under this proposal. USE reserves the right to adjust such pricing to reflect any future increases caused by tariffs or other similar governmental regulations that may occur in the future. If any such increase were to occur, written notice will be provided for a good-faith adjustment to the terms and conditions of any agreement between the parties to account for such increase.

U.S. Engineering Service, LLC. will not be liable for any direct or indirect damage, loss, cost delay or expense, including consequential damages or loss of use arising out of or in connection to the operation of the equipment or failure to operate, or failure of any apparatus, or its controls, or for material or labor delays, or for obsolescence, unless such loss or damage is due to the direct act or failure to act of U.S. Engineering Service, LLC. personnel. U.S. Engineering Service, LLC. shall not be responsible for or otherwise liable for damage caused by lightning, power failure, or any other electrical damage caused by malfunction of electrical distribution system, or damage caused by abuse, misuse, negligence, or work performed by others. All applicable taxes are the responsibility of the owner. A current insurance certificate is available upon request.

Contractor warrants its labor for a period of thirty (30) days from the date of completion unless otherwise stated in writing. Parts and materials are subject only to the manufacturer's warranty, if any, and Contractor makes no additional warranty on such items. This warranty does not cover failures resulting from normal wear and tear, improper operation, lack of maintenance, power fluctuations, misuse, or conditions outside Contractor's control. Contractor's obligation under this warranty is limited to repair or replacement of defective workmanship within the warranty period.

If Customer elects to provide equipment, parts, or materials for installation by Contractor, Contractor assumes no responsibility for the suitability, compatibility, performance, or warranty of such items. Labor associated with the installation of customer-supplied equipment or materials is provided without warranty unless otherwise expressly agreed in writing.

If Customer cancels the work after approval of this quote and scheduling of services, Customer shall be responsible for any costs incurred by Contractor prior to cancellation, including but not limited to mobilization costs, restocking fees, and the cost of any materials ordered that cannot be returned.

Payment shall be net upon receipt of invoice. We reserve the right to discontinue service under this agreement any time payments have not been made as agreed. In the event you fail to pay any sums under this contract 30 days from date of invoice, you agree to pay a monthly service charge equal to 1.5% of the amounts due; you further agree to pay all sums and expenses incurred by U.S. Engineering Service, LLC. (including reasonable attorneys' fees and court costs) in the collection of sums due hereunder.
