The 911 Oversight Committee and the Rules Committee will have a joint session to continue discussion on the E-911 Grant Fund application process.

Minutes:

In regards to the legislation and E-911 Grant Fund Application Process, Sean Smith noted that he requested a review of the final software decision, and would like to amend the time periods that applicants can apply annually. He believes it seems feasible to use AmpliFund, and thinks the Legislature can better prioritize application requests if application periods are offered twice a year.

The committee discussed a timeline and phases of legislation to address the process.

County Administration clarified that legislation would be needed for software decisions, contract provisions and possible bid requirements for solicitation processes. Whitney Miller with the County Counselor's office suggested that legislation could be passed without specifying a specific software to get the process started.

The 911 Oversight Committee will proceed with legislation specifying that state statute will be followed in establishing an application process. Future committees will be scheduled to collectively address software implementation and define roles and application periods for 2026.
