Introduction
<b>Action Items:</b> ['Award']
<b>Project/Title:</b>
Awarding a Twelve-Month Term and Supply Contract with One Twelve Month Option to Extend for the furnishing of Safety Equipment and Supplies for use by Various County Departments to Orr Safety Corporation of Riverside, MO under the terms and conditions of Invitation to Bid No. 12-21.

Request Summary
Various County Departments require a Term and Supply Contract for the furnishing of Safety Equipment and Supplies. The Purchasing Department issued Invitation to Bid No. 12-21 in response to those requirements.
A total of twenty-three notifications were distributed and one response was received and evaluated as follows:
<b>TOTAL PRICE OF ITEM NO. 1 - 28</b> <span style="float: right;"><b>\$325.14</b></span>
<b>ITEM NO. 29 - PRECENTAGE CATALOG DISCOUNT</b> <span style="float: right;"><b>5%</b></span>
<b>ITEM NO. 30 - PRESCRIPTION GLASSES</b> <span style="float: right;"><b>\$143.00</b></span>
Pursuant to Section 1054.6 of the Jackson County Code, the Director of Finance and Purchasing recommends award of the furnishing of Safety Equipment and Supplies to Orr Safety Corporation of Riverside, MO under the terms and conditions of Invitation to Bid No. 12-21.
Estimated annual usage is \$25,000. This award is made on an "as needed" basis and does not obligate Jackson County to pay any specific amount. The availability of funds for specific purchases is subject to annual appropriations.

## MORE INFORMATION ON PHOENIX INNOVATIVE LENSES

Provide employees with the perfect combination of durability & visual clarity

### Material Features

- High Impact resistance rating per ANSI Z87.1
- 60 times more impact resistant than standard plastic
- Twice as scratch resistant as polycarbonate
- Provides 100% UVA and UVB protection
- Temperature resistant
- The lightest lens material available today
- Tough against harsh chemicals and solvents which typically crack polycarbonate lenses
- Higher Abbe value of 43 vs. 30 for polycarbonate = less color distortion in the periphery of the lens polycarbonate lenses

**Chemical Resistant:** Harsh chemicals like ammonia, acetone and ethyl alcohols are known to attack polycarbonate lenses and cause cracking. The cracking and/or fogging typically emanates from the edge of the polycarbonate lens and can occur rapidly. Cracked lenses are a hazard because they do not have their original impact strength. They are not compliant to the ANSI standard. Employees should be encouraged to report and replace eyewear with cracked lenses immediately. That is why we highly recommend Phoenix lenses over polycarbonate.

## Safety Prescription Eyewear Warranties - Policies

### PRESCRIPTION POLICY

ORR Safety urges employees to visit their Eye Care Professional annually to ensure their prescription is accurate and their eyes are healthy. As part of our focus on the health and safety of the workforce, ORR recommends annual checkups, but requires that all eyewear prescriptions be less than two years old.

### HAZARD ASSESSMENT POLICY

It is the responsibility of the plant owner or safety director to conduct a hazard assessment for the workplace and determine the appropriate eyewear protection required for each job. ORR offers a wide selection of frames, lenses and coatings for review by plant officials.

### WARRANTIES

At ORR Safety, we stand behind our quality and service 100%. Our goal is to consistently provide exceptional service and quality products at the best value. To meet this goal, we have structured our policies to be flexible and responsive to all your safety eyewear needs.

**NOTE:** All lens, coating and frame warranties commence at the invoice date. The prescription and frame must remain unchanged. All warranties above are null and void in the event of improper care or abuse.

### PROGRESSIVE LENS WARRANTY

ORR Safety offers a 4-month employee satisfaction guarantee. Should an employee become dissatisfied with their SafeVision progressive lenses within 4 months of the invoice date, SafeVision/ORR will remake the progressive lenses one time, at no charge. In the highly unlikely event that employee still has issues, SafeVision/ORR will remake the prescription with multi-segmented lenses at full charge. A credit for the original eyewear will then be issued.

### PRESCRIPTION & FRAME CHANGES

**DOCTOR'S CHANGES:** SafeVision/ORR will replace any prescription or order change if within 6 months of the invoice date and within the original invoice amount. More expensive replacements will be charged the price difference.

**LAB REMAKES:** SafeVision/ORR will replace any lab errors, if within 6 months of the invoice date and within the original invoice amount. More expensive replacements will be charged the price difference.

**EMPLOYEE PREFERENCE CHANGES:** Changes due to employee preference are not warranty claims but will be accommodated. Employees must keep the normally billed first pair but will receive an employee paid 50% discount off the full price of the second pair; if within 2 months of the invoice date.

**RX CANCELLATIONS AND CHANGES:** If lenses are not yet in process, prescription changes can be made at no charge. If lenses are already in process, a 50% credit will apply. If lenses have shipped, no cancellation credit will be given.

### REPLACING LENSES UNDER WARRANTY

SafeVision will only permit licensed and/or trained eyecare professionals (ECPs)/opticians to replace safety eyewear lenses. If an ECP requests safety lenses as replacements, PLEASE BE ADVISED OF THE FOLLOWING CAUTIONS. Insertion of safety lenses is considered part of the manufacturing process. As such, ECPs conducting this operation essentially become a manufacturer of safety eyewear, with the duties and responsibilities that apply. Lens fit can compromise the workers protection from impact. SafeVision requires circumference dimensions or the frame to trace when replacing lenses. It is the responsibility of those inserting lenses in safety frames to thoroughly check the fit of the lenses. The lenses should be snug and fit deeply in the groove. Any eyewire or lens movement can lead to potential injury. The frame must also be inspected for any damage or weakness from previous use. Frames over 2 years old shall be replaced, at the employee's expense, with new frames since the integrity and strength cannot be assured. Discontinued frames must be less than 2 years old and must be sent to the lab for tracing.

### USER SUPPLIED FRAMES

SafeVision/ORR will not warrant a lab breakage of a previously used, employee supplied, frame.

### AWAITING REPLACEMENT EYEWEAR

Employees waiting for their replacement safety eyewear should consult their company for recommended temporary eye protection. Damaged frames or lenses should not be worn in the workplace as they can compromise the safety of the employee. Any warranty replacement claim should be made through Customer Excellence Center at 800-982-2828. A Return Material Authorization (RMA) number will be assigned.
