**POLICE RADAR/LIDAR SPEED ENFORCEMENT AND
SPEED ADVISORY SYTEMS, PARTS AND ACCESSORIES - NASPO VALUEPOINT**

General: The contracts identified herein have been awarded to serve State of Missouri agencies, political subdivisions or governmental entities specified by the State of Missouri for police radar/lidar speed enforcement and speed advisory systems, parts and accessories. The contracts are piggyback contracts off of current NASPO ValuePoint contracts established by the State of Washington.

Ordering: State agencies are advised to check each contract for the purchase of police radar/lidar speed enforcement and speed advisory systems, parts and accessories and to choose the best product, best price, best delivery the various contracts make available to them. All contracts are “preferred use” contracts which means that the contracts have been bid with the goal of providing good market pricing and product variety to state agencies. Agencies are encouraged to use preferred-use contracts but in rare instances where the state agency can obtain like or similar products that meet the state agency’s needs at a better price, then the agency has authority to purchase the items from other sources so long as the provisions of the Local Purchasing Authority Delegation are followed. The Delegation can be viewed and downloaded from the internet at this site: <https://oa.mo.gov/purchasing#mini-panel-purchasing-tabs4>.

The state agency will issue its own properly authorized purchase order in MissouriBUYS on an as needed basis. The contractor must not ship until he/she is in receipt of an approved contract release.

- a. The contractor shall understand and agree no item shall be released to the state agency unless signed for with a readable signature by the state agency person accepting the order.
- b. The contractor shall understand and agree no orders shall be accepted or delivered without an order number. The order number should be shown on all shipping paper, invoices, etc.

Catalog: State agencies are advised that catalogs have been generated in MissouriBUYS for each of the contractors. The catalogs can be viewed at <https://webprocure.perfect.com/WebDriver?ACT=IndexReq&DP=ReqCreatePrivilege&EID=38&SID=9930d02b88d2ab6bf6d10f9a64f24f8538&ReqIDEXT=0>

Pricing: Firm, fixed pricing is in accordance with the Price Listing stated herein provided by each individual contractor.

Delivery: All deliveries shall be F.O.B. destination, freight prepaid, with all transportation and handling charges paid by the contractor. Responsibility and liability for loss or damage shall remain the contractor’s until final inspection and acceptance when responsibility shall pass to the state agency except as to latent defects, fraud and contractor’s warranty obligation.

All products must be delivered in the manufacturer’s standard package. Costs shall include all packing and/or crating charges. Cases shall be of durable construction, good condition, properly labeled and suitable in every respect for storage and handling of contents. Each shipping carton shall be marked with the commodity, brand, item code and the state agency’s purchase order number.

All packing lists, packages, instruction manuals, correspondence, shipping notices, shipping containers, and other written materials associated with this contract shall be identified by the contract number stated on the cover page of the Notification of Statewide Contract and the applicable purchase order number. Packing lists shall be enclosed with each shipment and clearly identify all contents and any backorders.

Returns: Purchasing entities may return unopened or unused (non-specialty) police radar/lidar products within the (10) business days of receipt for full credit, minus any freight or restocking fee. In such event the contractor is responsible for shipping costs pertaining to any defective police radar/lidar products that are returned.

Warranty: The contractor warrants all police radar/lidar products (full parts and labor) for a minimum of one (1) year after receipt of police radar/lidar products by state agency. Contractor guarantees complete repair or replacement of any police radar/lidar product, or part thereof that fails in operation during normal and proper use within one (1) year from date of state agency's receipt due to defects in design, material or workmanship. Any warranty replacement or repair shall be at no cost to the purchasing entity. The cost to install replacement parts, including shipping and delivery shall be paid by the contractor during the warranty period.
