ENMOTION® 10" RECYCLED PAPER TOWEL ROLLS BY GP PRO (GEORGIA-PACIFIC), BROWN, 6 ROLLS PER CASE

Green Seal Certified to GS-1 Standard. High quality, 10 inch wide, roll towel for enMotion® Classic or enMotion® Impulse® 10 automated, electronic roll towel systems.

Description:

These cost-effective, high-quality roll towels are specifically engineered to be used with our enMotion® Wall-Mount Automated Towel Dispenser or enMotion® Impulse® 10 Towel Dispenser to provide reliable towel dispensing at the wave of a hand. Choose these towels for dependable, cost-saving performance and customer satisfaction.

Features & Benefits:

- » SOFT, THICK and ABSORBENT paper towel that delivers quality and performance
- » LONG LASTING ROLLS help reduce the time spent refilling and minimize the need for maintenance
- » REDUCE WASTE with the ability to adjust dispensed sheet length, resulting in less towels used
- » COMPATIBLE with enMotion® 10" paper towel dispensers 59462A, 59407A, 59460A, 59488A, 59447A, 59487A
- » CONTAINS at least 50% Post-Consumer Recycled Fiber. Meets or Exceeds EPA Comprehensive Procurement Guidelines
- » THIS PRODUCT MEETS Green Seal™ Standard GS-1 based on chlorine free processing energy and water efficiency and content of 100% recovered material with a minimum of 50% post consumer material GreenSeal.org
- » USDA Certified Biobased product
- » CAN help earn LEED® credits
- » The Sustainable Forestry Initiative® certified sourcing label is proof Georgia-Pacific is using fiber from responsible and legal sources. SFI® is a registered trademark owned by Sustainable Forestry Initiative, Inc. www.sfiprogram.org

PACIFIC BLUE BASIC™ RECYCLED HARDWOUND PAPER TOWEL ROLL (PREVIOUSLY ENVISION®) BY GP PRO (GEORGIA-PACIFIC), BROWN, 6 ROLLS PER CASE

Green Seal Certified to GS-1 Standard. High capacity, economical brown hardwound roll towels offer reliable performance at a low cost.

Description:

Designed to fit into a wide range of universal hardwound roll towel dispensers, these high capacity, economical, brown hardwound everyday roll towels help you keep costs under control. Low per-unit costs makes these towels the affordable choice for high-traffic areas such as washrooms in government and public facilities, office buildings, foodservice facilities and lodging. EPA compliant for minimum post consumer waste recycled fiber content, Pacific Blue Basic™ hardwound roll towels let you offer your customers reliable performance at a low cost.

Features & Benefits:

- » Envision® brand is now Pacific Blue Basic™
- » **DEPENDABLE** absorbency, thickness and strength ideal for hand drying wiping and general cleaning
- » **ECONOMICAL** to help you keep costs under control
- » **COMPATIBLE** with most standard, hardwound roll paper towel dispensers
- » **CONTAINS** at least 50% Post-Consumer Recycled Fiber. Meets or Exceeds EPA Comprehensive Procurement Guidelines

COMPACT® CORELESS 2-PLY RECYCLED TOILET PAPER BY GP PRO (GEORGIA-PACIFIC), 18 ROLLS PER PACKAGE

Green Seal Certified to GS-1 Standard. High capacity coreless rolls decrease service intervals, reduce the risk of run out, have 95% less packaging waste, and require half the storage space as compared to GP standard bathroom tissue.

Description:

Compact® Coreless 2-Ply Toilet Paper is specifically designed to increase capacity. Compact® allows you to convert existing dispensers with the use of specially designed dispenser spindles.

Features & Benefits:

- » CORELESS ROLLS let you use 100% of the toilet paper and eliminate stub roll waste
- » HIGH CAPACITY ROLLS help reduce service calls and the risk of run-out
- » MORE HYGIENIC system design because locked system protects unused rolls until current roll is fully dispensed
- » REDUCED WASTE due to 95% less packaging¹ by eliminating cardboard cores, inner wraps and other corrugated materials
- » COMPATIBLE with Compact Quad®, Vertical and Side-by-Side toilet paper dispensers
- » CONTAINS at least 25% Post-Consumer Recycled Fiber. Meets or Exceeds EPA Comprehensive Procurement Guidelines
- » THIS PRODUCT MEETS Green Seal™ Standard GS-1 based on chlorine free processing energy and water efficiency and content of 100% recovered material with a minimum of 25% post consumer material GreenSeal.org
- » USDA Certified Biobased product
- » CAN help earn LEED® credits
- » The Sustainable Forestry Initiative® certified sourcing label is proof Georgia-Pacific is using fiber from responsible and legal sources. SFI® is a registered trademark owned by Sustainable Forestry Initiative, Inc. www.sfiprogram.org

Multifold Towel, Recycled Kraft, 4,000 Towels per Case

Tork Advanced PeakServe Continuous Hand Towel

105065

Description

Tork Advanced PeakServe Continuous Hand Towels means fewer washroom delays - gets guests in and out faster. Avoid run outs with 250% more hand towels and lower consumption thanks to one-at-a-time dispensing. Faster dispensing serves guests in 3 seconds - quicker than jet air drying time. Taking a towel is always smooth and easy with our patented continuous towel system. More flexibility means more time to clean. Top it up when it suits you with up to 600 more guests served between refills. Double the towels you carry as they're compressed by 50%. Cut refill time in half with over 2000 towels per dispenser. Poly Bag Wrapped.

- Compressed hand towels for increased capacity, reducing maintenance time required
- Continuous hand towels dispense smoothly, even between bundles, for a better restroom flow with no hold ups for guests
- One-at-a-time dispensing for reduced consumption and increased hygiene

Environmental Information

Content

The product is made from

Virgin pulp

The packaging material is made from paper or plastic.

Material

Virgin fibers

There are different methods used today for bleaching: ECF (elementary chlorine free, where chlorine dioxide is used, and TCF (totally chlorine free) where ozone, oxygen and hydrogen peroxide is used.

Virgin pulp fibers are produced out of softwood or hardwood. The wood is subject to chemical and/or mechanical processes where the cellulose fibers are separated out and lignin and other residuals are removed.

Bleaching is a cleaning process of the fibers and the aim is to achieve a bright pulp, but also to get a certain purity of the fiber in order to achieve the demands for hygiene products and in some cases to meet the requirements for food safety.

Chemicals

All chemicals (process aids as well as additives) are assessed from an environmental, occupational health and safety and product safety point of view.

To control product performance we use additives:

- Wet strength agents (for Wipers and Hand Towels)
- Dry strength agents (is used together with mechanical treatment of the pulp to make strong products like wipers)
- For colored papers dyes and fixatives (to secure perfect fastness of the color) are added
- For printing products printing inks (pigments with carriers and fixatives) are applied
- For multi ply products we often use water soluble glue to secure the integrity of the product

In most of our mills we do not add optical brighteners.

We do not use softeners for professional hygiene products.

High product quality is secured through quality and hygiene management systems throughout production, storage and transport.

In order to maintain a stable process and product quality the paper manufacturing process is supported by the following chemicals/ process aids:

Tork Advanced PeakServe Continuous Hand Towel

105065

- defoamers (surfactants and dispersing agents)
- pH-control (sodium hydroxide and sulphuric acid)
- retention aids (chemicals that help to agglomerate small fibers to prevent fiber loss)
- Coating chemicals (that help to control the creping of the paper to make it soft and absorbent)

To reuse broke we use:

- Pulping aid (chemicals that help to repulp wet strong paper)

In the cleaning of our waste water we use flocculation agents and nutrients for the biological treatment to secure that no negative impact on water quality comes from our mills.

Environmental certification	This product is certified for FSC®.
Packaging	Fulfilment of Packaging and Packaging Waste Directive (94/62/EC): Yes
Article creation date and latest article revision	Date of issue: 03-08-2020 Revision date: 17-06-2025
Production	This product is produced at Harrodsburg - US mill.
Destruction	This product is mainly used for personal hygiene and can be collected together with household waste.

ENMOTION® GEN2 MOISTURIZING FOAM SOAP DISPENSER REFILLS BY GP PRO (GEORGIA-PACIFIC), DYE AND FRAGRANCE FREE, 2 BOTTLES PER CASE

Description:

enMotion® Gen 2 Foam Soap with Moisturizers has a rich foaming lather and hypoallergenic formula to leave skin feeling fresh and is gentle enough for daily use. Closed hygienic refill bottles install with one hand and dispense at least 99% of foam product before replacement is needed. Designed for use with enMotion® Automated Touchless Soap Dispensers. *EPA/Safer Choice recognition does not constitute endorsement of this product. The Safer Choice logo signifies that the product's formula, as Georgia Pacific has represented it to the EPA, contains ingredients with more positive human health and environmental characteristics than conventional products of the same type. EPA/Safer Choice relies solely on Georgia Pacific, its integrity and good faith, for information on the product's composition, ingredients and attributes. EPA/Safer Choice has not independently identified, that is, via chemical analysis, the ingredients in the product formula, nor evaluated any of Georgia Pacific's non-ingredient claims. EPA/Safer Choice provides its evaluation only as to the product's human health and environmental characteristics, as specified in the Standard and based on currently available information and scientific understanding.

Features & Benefits:

- » RICH FOAMING formula is dye and fragrance-free and moisturizes as it cleans
- » HYGENIC refills are sealed to help reduce risk of cross contamination
- » EASY TO MAINTAIN with high-capacity refills that reduce runout and are designed for easy one-hand loading
- » 100% RECYCLABLE BOTTLES, contain 25% post-consumer content
- » COMPATIBLE with enMotion® Gen2 Soap and Sanitizer Dispensers 52057, 52058, 52060
- » This product meets Green Seal™ Standard GS-41A based on effective performance and protective limits on VOCs and human & environmental toxicity. GreenSeal.org
- » Can help earn LEED® credits
- » SAFER Choice recognized for safer chemistry*

Drain and Trap Treatment

Drain and Grease Trap Cleaner and Maintainer

Drain and Trap Treatment contains a blend of probiotics that degrade grease and short and long-chain fatty acids that are the root cause in clogging drain lines and grease traps. The proprietary nutrient package greatly reduces the production of Hydrogen Sulfide odors and other foul odors that are commonly associated with anaerobic (no oxygen) environments.

[Calculate Your Dosage Rates](#)

Features

- NSF International Certified for use in all regulated food processing and food service environments.
- 700 Billion CFU per gallon
- 3.5 x the industry standard CFU per gallon
- Won't damage pipes or traps
- Neutral formula that doesn't contain caustics or acids; safer for the end user
- Can be applied manually or using a Betco® automatic dosing system

Mop Head Type

Narrow Band, Screwflat

Medium Duty Scour Pad, 6 x 9, Green, 20/Carton

- For most common wet cleaning jobs.
- Cleans pots, pans, sinks, counters, and kitchen equipment.
- Removes scuff marks on floors, stairwells, and baseboards.

Description :

Thick, medium duty scouring pads tackle your common, every day cleaning jobs with ease. The rough, textured pads require less elbow grease than light duty scrubbers and sponges. Strong and durable pads are ideal for cleaning kitchen preparation tools and surface areas. Helps remove foods and grease from pots and pans with less scrubbing. Removes scuff marks from floors, baseboards, and stairwells.

Fiberglass Broom Handle, Nylon Plastic Threaded End, 1" dia x 60", Black

BWK636

- Super tough, nylon plastic, standard threaded end.
- Fiberglass handle is mesh-veiled to prevent splintering.
- Helps evenly distribute stress over the handle for long-lasting use.
- 1" diameter for a secure grip.

Description :

Boardwalk® Fiberglass Broom Handle is a super tough, nylon plastic, standard threaded end handle. The durable, fiberglass handle is mesh-veiled to prevent splintering. The quality design helps to more evenly distribute stress over the handle for long-lasting use. 1" in diameter for a secure grip. Wipes clean and repels away water and liquid solvents. Screws into standard threaded brooms, which are sold separately.

Impact® Side Gate Mop Handle, 60 Inch, Blue/Black, 12/cs

T0044-00

[Request for more Information](#)

Features and Benefits:

- Heavy-duty fiberglass handle with honeycomb core makes this handle strong and durable
- Release latch on the side of the frame head allows for easy removal of the mop eliminating contact with dirty mop heads
- Provides extended reach and efficient cleaning for large floor areas
- Sturdy construction ensures long-term reliability without adding extra strain
- Perfect for schools, hospitals, offices, and cleaning services

The Impact® Side Gate Mop Handle is engineered for efficiency and strength in professional cleaning environments. Designed with a side gate head, this mop handle allows quick, tool-free mop head changes, making it easy to keep cleaning momentum without interruption. At 60 inches long, the handle provides excellent reach and leverage, helping custodial teams cover more floor space with less effort. The durable construction is built for daily use in demanding commercial and industrial settings while remaining lightweight enough to reduce cleaning fatigue. Perfect for janitors, facility managers, and professional cleaning crews, this bulk case of 12 mop handles ensures you always have reliable equipment on hand. Whether used in schools, hospitals, restaurants, or warehouses, the Impact® Side Gate Mop Handle delivers dependable performance shift after shift.

3M™ HB Quat Disinfectant Cleaner Concentrate 25L, Gray Cap, 2 Liter, 6/Case

- 7000053094

Product Details

- EPA registered, hospital grade, quaternary disinfectant cleaner kills HBV, HIV 1, MRSA, VRE, Herpes Simplex I and II and other pathogens
- Yield per 2 Liter bottle: 180 ready to use gallons
- 25L Low Flow.

Disinfectant Spray, Original Scent, 19 oz Aerosol Spray, 12/Carton

RAC04650CT

- Kills 99.9% of viruses and bacteria, including cold and flu viruses, Salmonella, E. Coli, MRSA, RSV, Staph, and Strep when used as directed.
- Proven to kill the virus that causes COVID-19 in 15 seconds when used as directed.
- Meet customer and staff disinfecting expectations across a range of industries, including offices, education, retail, and hospitality.
- Help protect high-touch germ hot spots, including door handles, railings, light switches, seats, counters, restrooms, and desks.
- Formulated for safety standards.
- Safe to use on soft surfaces, including upholstery, sofas, chairs, cushions, pillows, mattresses, and bedding.
- This product has demonstrated effectiveness against viruses similar to Monkeypox on hard, non-porous surfaces and in accordance with the EPA's Viral Emerging Pathogen Policy, can be used against Monkeypox, when used in accordance with the directions for use.
- Make disinfection protocols more evident and eliminate odor-causing bacteria.
- Disinfect more surfaces in less time with a one-step spray in a larger size that can help reduce restock time.

Description :

Boost customer confidence with Lysol® Professional Disinfectant Spray that's safe to use on hard and soft surfaces. Lysol® kills 99.9% of viruses and bacteria, including the virus that causes COVID-19 in 15 seconds, as well as cold and flu viruses when used as directed. Help protect high-traffic areas and high-touch surfaces, including desks, bathrooms, doorknobs, and railings. Deliver hospital-type disinfection into soft surfaces, including upholstery, curtains, sofas, mattresses, and cushions. Meet customer and staff expectations around disinfection. Simply spray and let air dry.

Oxivir® Tb

Hospital Grade Disinfectant

Cleans and kills bacteria, viruses and fungi in one step

Oxivir Tb is a one step disinfectant, cleaner and odour neutraliser. It requires no post use rinsing when used on non-food contact surfaces. It will clean and disinfect most surfaces found in health, educational and recreational environments. Post use the active ingredient breaks down to only oxygen and water.

Oxivir Tb is One-Step Hospital Grade Disinfectant Cleaner based on Accelerated Hydrogen Peroxide (AHP®) Technology to deliver fast, broad spectrum disinfection with enhanced cleaning power.

Kills SARS-CoV-2 (COVID-19 virus) in 1 minute.

Effective

- Virucidal, Bactericidal, Fungicidal, Tuberculocidal
- Virucidal in 1 minute. Kills Norovirus, H1N1, Influenza A, Human coronavirus 229E, Hepatitis B
- Effective against 27 pathogenic micro-organisms including VRE & MRSA.
- Sanitises soft surfaces such as curtains, cushions and carpets
- Oxivir Tb does not contain Methylisothiazolinone (MI), a preservative associated with systemic toxicity, dermatitis, skin corrosion and eye damage

Easy to use

- Ready to use, non-rinsing formula
- One step cleaning and disinfection of hard environmental surfaces

Safe

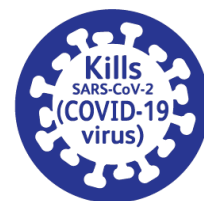

- Surface protection: non-corrosive, non-bleaching formula. Disinfect hard surfaces without creating destructive micro-cracks that harbour pathogens
- High safety profile – not classified as hazardous according to GHS requirements

Environmentally Responsible

- No VOC's, no added fragrance
- Active ingredient, Hydrogen peroxide biodegrades into water and oxygen

Designed for

- Healthcare (Hospitals, Nursing Homes, Medical Establishments)
- Child Care Centres
- Hospitality

Oxivir[®] Tb

Hospital Grade Disinfectant

Use instructions

Ready to Use (RTU) Liquid

1. Apply Oxivir Tb undiluted to surfaces by spray, cloth or disposable wipe.
2. All surfaces must remain visibly wet for 1 minute for viruses and bacteria. For fungi, surfaces must remain visibly wet for 10 minutes.
3. Allow to air dry.

A potable water rinse is required when disinfecting food contact surfaces. Do not mix with other detergents or other chemicals. Oxivir Tb can not be used on glasses, dishes and utensils or therapeutic devices. Not recommended for use on brass, copper or marble.

Hard surface disinfectant only. Not to be used on skin. Not intended to be used on medical devices or other therapeutic goods. Store below 25°C.

Oxivir Tb cleans, disinfects, deodorises and controls mould and mildew on hard non porous surfaces. Use daily on vinyl, plastic, glazed ceramic and porcelain, chrome, stainless steel, laminates, walls, ceilings, tables, chairs, countertops, telephones, other fixtures, toilet exteriors, patient rooms, operating rooms and shower rooms

CONSTRUCTION:

Fabricated of 22-gauge (.759mm) type 304 satin finished stainless steel. Body of dispenser is welded to back panel. View level indicator is clear plastic. Valve is black molded plastic push button with antibacterial-soap-resistant plastic cylinder and stainless steel spring.

CAPACITY:

40-fl oz. (1.2-L) of liquid lotion soaps. Hinged filler cap at top of unit is keyed to resist vandalism.

INSTALLATION:

Unit is surface mounted to wall or partition with a wall mounting plate (supplied) and screws (supplied). Unit is secured to interlocking wedge bracket and locked in place by a screw (supplied) installed through rear wall and accessed thru unlatched hinged refill door. Recommended installation for general utility is 42" (1066mm) AFF or 6" (152mm) minimum above washbasin.

MOUNTING:

Mounting location for push button dispensers are 44" (1118mm) maximum above the finish floor. Push buttons and pistons should be operable with one hand and without tight grasping, pinching, or twisting of the wrist. Activation of soap valves should not require more than 5 pounds of force when unit is completely filled.

NOTES:

Wood blocking is preferable behind all wall surfaces. If wood blocking is not available, the following fasteners are suggested:
 Tile/Masonry - Plastic or lead anchors
 Plaster/Drywall - Toggle bolts

Surface-Mounted Vertical Tank-Type Soap Dispenser with All-Purpose Valve shall be Model G-16AP of Gamco Commercial Restroom Accessories, One Gamco Place, Durant, OK, 74701-1910

INCREDIBLY LIGHTWEIGHT, CORDLESS AND DURABLE BACKPACK VACUUM CLEANER.

The BVL 5/1 Bp is the first backpack vacuum to not only be ultra-lightweight, but simultaneously deliver superior cleaning capability. Thanks to an innovative EPP (expanded polypropylene) material, the carrying weight on the back with the Battery Power+ battery equipped is only 13 lbs. With an output of 500 watts, a long battery running time and a 1.3 gal. container, the backpack vacuum is ideal for narrow spaces where cleaning is difficult such as movie theater seating, buses, trains or airplanes. Featuring an ergonomic carrying frame, and adaptable design to accommodate right or left-handed operation. The operator uses a control panel on the waist strap to control all important operating functions. The brushless EC drive is also extremely resistant to wear and tear. A HEPA-14 filter is also optionally available.

1 Ultra-light cordless backpack vacuum

- Weighs only 10 lbs. with the battery included for fatigue-free cleaning
- Cord free use with excellent mobility and flexibility for the operator
- Risk of trip and fall hazards eliminated due to no cord

2 Highly innovative EPP (expanded polypropylene)

- Manufactured from extremely innovative EPP which is environmentally friendly and easy to recycle.
- Especially robust and extremely long-lasting.
- Ultra light, durable material weighs 50% less than other models.

4 Runs on the Kärcher Battery Platform

- Incredible mobility, ease of swapping batteries for nearly continuous run time.

5 Great ergonomics

- Carrying harness extremely comfortable even when using for longer periods of work.
- Control panel on the waist strap enables easy control of all functions.

6 Brushless EC drive

- This technology reduces maintenance costs and extends lifetime of the vacuum
- Allows long periods of use and increases efficiency and productivity.

Double your scrubbing productivity.

Experience a 50 percent gain in productivity with the Chariot™ 2 iScrub 20 Deluxe versus a conventional 20-inch walk-behind scrubber. With a lower investment cost, higher production rate and simplicity of maintenance, this scrubber exceeds all expectations. This model features an on-board charger and optional chemical metering for even greater time-savings.

1 Productivity focused

- Chariot™ patented stand-on cleaning technology that significantly increases productivity and cleaning quality
- 50% more productive than a conventional 20-inch walk-behind scrubber
- Quiet operation for daytime cleaning
- On-board charger allows for charging anywhere
- The center-pivot squeegee uses Aqua-Mizer™ Technology, creating a cleaning chamber that holds the solution so that it is used to the fullest effectiveness. Aqua-Mizer™ helps you lower your water and chemical consumption, extending up to 50% greater coverage per tankful.
- Optional chemical metering available to ensure optimal chemical usage

2 Safety first

- Swiveling no-adjustment squeegee with Aqua-Mizer™ functionality ensuring 100% water pick up for dry, safe floors
- Design and size that provides remarkable maneuverability, and best-in-industry 360° visibility that allows the operator to see more of the cleaning area
- Tie-down bar for ease of transportation

3 Easy to use

- Intuitive control panel with two transport speeds, two operating speeds, and an easy-to-clean, fully accessible hygienic recovery tank
- Solution dump hose rotates to the floor for easy, operator-free dumping
- Wide open accessibility for service, with hygienic, easy-to-clean recovery tanks and easy access to batteries
- Tight 48-inch turning radius for maneuverability

Technical data and equipment.

Exceeding your scrubbing expectations.

Experience a fifty percent gain in productivity with the Chariot™ 2 iScrub 20 Deluxe versus a conventional 20 inch walk-behind scrubber. With a lower investment cost, higher production rate and simplicity of maintenance, this scrubber exceeds all expectations. This model features an on-board charger and optional chemical metering for even greater time-savings.

Productivity focused

- On-board charger allows for charging anywhere
- Optional chemical metering available

Safety first

- Design and size that provides remarkable maneuverability, and best-in-industry 360° visibility
- Tight 48 inch turning radius for maneuverability

1.006-192.0	Chariot™ 2 iScrub 20 Deluxe, pad driver, 36V Lithium batteries, shelf charger

ACCESSORIES

Order No.	Description
■ 8.600-041.0	Pad driver, 20-inch
□ 8.632-606.0	Chariot™ front squeegee gum rubber for Chariot™ iScrub 20/Chariot™ iScrub 20 Deluxe
□ 8.632-607.0	Chariot™ rear squeegee gum rubber for Chariot™ iScrub 20/Chariot™ iScrub 20 Deluxe
□ 8.634-205.0	Chariot™ front squeegee urethane, Chariot™ iScrub 20/Chariot™ iScrub 20 Deluxe
□ 8.634-206.0	Chariot™ rear squeegee urethane, Chariot™ iScrub 20/Chariot™ iScrub 20 Deluxe
□ 8.600-042.0	Polypropylene Brush, 20-inch
□ 8.628-387.0	Nylon polish brush 20-inch
□ 8.600-043.0	Nylon brush, 20-inch
□ 8.600-044.0	Mild grit brush, 20-inch
□ 8.640-378.0	Kit, squeegee blade, gum rubber

■ Included □ Optional

One machine, one purpose, one totally clean environment.

If you want spotless restrooms the only one way to do it hygienically is with the AP 100/50 M. This is a specialty machine dedicated to touchless cleaning. It is designed to remove soils and bacteria while increasing safety. The improved productivity of this design will save you time and labor costs. You will see surfaces dry in one third of the amount of time when compared to traditional methods, resulting in a safer environment for guests and employees.

1 Touchless cleaning

State-of-the-art touchless cleaning design allows the operator a clutter-free work station, while providing easy access to tools, chemicals and accessories

2 Hygienic

Daily cleaning will completely remove soils and bacteria

3 Safety

Safely and accurately dispenses cleaning solutions at a safe pressure, then it rinses at low or high pressure and vacuums the surfaces completely dry in 1/3 less time than conventional cleaning methods.

Unique features of the AP 100/50 M allow the operator to clean multiple surfaces easily and safely while increasing productivity, saving time, and reducing labor costs.
