REQUEST SUMMARY	<p>The Haines Road Bridge is located approximately 1.7 miles south of Missouri Route 150 and 0.62 miles east of Smart Road. The bridge is eligible for replacement in the Off-System Bridge Program (BRO). This program provides for 80% funding on eligible costs for the project. The Local Entity is responsible for the 20% match. The Public Works Department intends to use soft match credit for the Local Entity match resulting is a project that will be 100% funded. According to the County Records, the 4-cell RCB was constructed in 1960. The top surface of the bridge deck has been used as the roadway surface. The deck edges are deteriorating to the point that there is exposed reinforcing steel along the edges of the bridge, as well as other structural components that require attention. In the field it was noted that the bents are not keyed into the rock. In addition, this structure was identified by the Road and Bridge Division as being susceptible to flash flooding with stormwater overtopping the roadway. The project will address these issues. Construction is anticipated in late 2021.</p> <p>The Public Works Department has requested funding and received approval from Missouri Highway Department for this project.</p> <p>We request that an ordinance be prepared authorizing the County Executive to enter into an agreement with the Missouri Department of Transportation for the design and construction of the Haines Road Bridge.</p>
