PROBLEM IDENTIFICATION

Hazardous driving is a serious problem on Missouri's roadways and has contributed substantially to traffic crashes, especially crashes resulting in death. Many of these crashes are caused by aggressive drivers of motorized vehicles who have committed one or more of the following violations: speeding; driving too fast for conditions; and/or following too close. Other hazardous driving may include improper lane change, red-light running, or impaired driving.

From 2010-2012, there were 975 fatalities resulting from aggressive drivers. Of those fatalities, 43.0% resulted from exceeding the speed limit, 58.5% resulted from driving too fast for conditions, and 5.9% from following too close. Also, during the same time frame there were 718 people killed and 2,821 seriously injured in crashes where drivers or pedestrians were impaired by alcohol and/or other drugs.

According to the STARS reporting for 2010 - 2012 Jackson County ranks second in Missouri for speed involved traffic crashes with 9,221. Unfortunately for Jackson County we took the lead with 87 lives lost when it comes to the fatal crashes where speeding has been involved. Three Jackson County cities (Kansas City, Independence, and Lee's Summit) listed in the top five cities having the most speed related crashes - accounting for 23.5% of the crashes in the entire state of Missouri. When factoring in the remaining cities in Jackson County, the speed crashes for Jackson County totals more than 1/4th of the state total. Even more alarming is 33.8 % of the speed related fatal crashes during 2010-2012 were in Jackson County Cities. Jackson County is fortunate to have such a vast, well maintained roadway system and with a variety from city rush hour traffic to the quiet open country roadways a wide range of driving habits can be observed.

According to STARS reporting for 2013 Crashes - 83 were alcohol related, 96 could be contributed to distracted / inattentive habits, 223 Fail to Yield, 139 Follow Too Close, 180 Improper Lane Violations, 334 Speed related and 95 were Signal Violations. Funding is necessary to provide the additional law enforcement and non-law enforcement personnel to participate in aggressive driving and speed related enforcement.

According to STARS reporting summary for 2010 - 2013. June, May and October has the highest amount of distracted involved traffic crashes. With crashes occurring Tuesday, Thursday and Friday at the times of 3 p.m., 4 p.m. and 5pm being the most frequent.

According to STARS reporting summary for 2010 - 2013 the January, February and March have the highest amount of speed involved traffic crashes occurring Thursday, Friday and Saturday beginning at the times of 3 p.m., 4 p.m. and 7 a.m. being the most frequent. Which would show a need for increased presence of law enforcement during the rush hour traffic both in the morning and afternoon.

Stop sticks is needed to prevent eluding speeders from becoming a chase or pursuit into high traffic areas or high populated neighborhoods.

GOALS/OBJECTIVES

Goal:

To decrease Hazardous Moving Violation driving related fatalities by 2 percent annually to:

- 305 by 2012
- 299 by 2013
- 293 by 2014
- 287 by 2015

Objective:

Develop and implement a plan that focuses on hazardous moving violations (such as speeding, following too closely, driving too fast for conditions, red-light running, improper lane changes, and failure to yield) at high crash locations and corridors.

1. Targeted population - Aggressive driver and speeding
2. Enforcement locations - While the largest amount of speed involved crashes tend to occur on city streets. We need to remain mindful of the large numbers of crashes occurring on Interstate 70, Interstate 435, Interstate 470, US 40, US 24, MO 291, MO 78 and MO 7. While the cities have local enforcement efforts and the Interstate, US and State Highways have Missouri Highway Patrol stretching across multiple counties with their enforcement efforts. The county roads and all roadways that are unincorporated in Jackson County, rely on the Sheriff's Office to respond to their needs and monitor those roadways. Like the Missouri Highway Patrol the Sheriff's Office has jurisdiction throughout the county.
3. Number of Officers assigned to each enforcement period - as few as 1-2 when being used to provide additional enforcement in districts to 10-12 personnel (including non law enforcement personnel) when operating wolf pack or saturation patrol with command center for enforcement efforts as aggressive driving campaigns.
4. Time of Enforcement - Crash data supports 3-5 pm and 7-8am
5. Duration of each Enforcement - 4-6 hr generally.
6. Days of the week selected for enforcement periods - Friday, Thursday and Saturday
7. Months - All year.
8. Additional projects description:
 - a. DWI Checkpoint - continue participating with KCPD at their sobriety checkpoints with a goal of twelve as overtime enforcement for monitoring impaired drivers.
 - b. Task Force Enforcements - continue participating in sobriety checkpoints and saturation patrols with Jackson County Traffic Safety Task Force Agencies in their communities/cities through mutual agreement
 - c. Wolf Pack/Saturation Patrols - work in association with task force on aggressive driving campaigns on major Highways, such as was conducted in November 2012.
 - d. Patrols - The concentration of law enforcement vehicles is a highly visible means of educating the general public to our goal of encouraging safer driving habits while traveling our roadways.
 - e. Saturation Patrols - participating in operating additional enforcement in area surrounding Kansas City or other cities during a sobriety checkpoint throughout Jackson County when agency has requested our presence to supplement their enforcement.
 - f. Move Over Law - Selective enforcement to provide additional vehicle to target motorist that fail to yield and move over for law enforcement and other emergency vehicles, stopped along roadway in performance of their duty.
 - g. The overtime funding will help provide additional enforcement at the direction of the Sheriff's Deputies to respond to citizen complaints of HMTV and to school bus driver complaints on student safety issues during loading and unloading the children. While creating a presence in the area.
9. Equipment - Stop sticks to maintain in each patrol and DWI unit vehicle for use to prevent eluding vehicle from reaching high traffic and highly populated areas.

Stop Sticks - are used to stop persons who have made bad choice to attempt to elude law enforcement. Although pursuit and chase is only a last resort in extreme cases, the need still remains to have our Deputies equipped with this tool.

PROJECT EVALUATION

The MHTC will administratively evaluate this project. Evaluation will be based, at a minimum, upon the following:

1. Law enforcement compliance with state UCR, Racial Profiling, and STARS reporting requirements (law enforcement contracts only)
2. Timely submission of monthly reimbursement vouchers and appropriate documentation to support reimbursement for expenditures (i.e., personal services, equipment, materials)
3. Timely submission of periodic reports (i.e., monthly, quarterly, semi-annual) as required
4. Timely submission of the Year End Report of activity (due within 30 days after contract completion date)
5. Attaining the Goals set forth in this contract*
6. Accomplishing the Objectives* established to meet the project Goals, such as:
 - Enforcement activities (planned activities compared with actual activities)
 - Programs (number and success of programs held compared to planned programs, evaluations if available)
 - Training (actual vs. anticipated enrollment, student evaluations of the class, student test scores on course examinations, location of classes, class cancellation information)
 - Equipment purchases (timely purchase of equipment utilized to support and enhance the traffic safety effort; documentation of equipment use and frequency of use)
 - Public awareness activities (media releases, promotion events, incentive items or education materials produced or purchased)
 - Other (any other information or material that supports the Objectives)
7. The project will be evaluated by the Traffic and Highway Safety Division through annual crash analysis.

Evaluation results will be used to determine:

- The success of this type of activity in general and this particular project specifically;
- Whether similar activities should be supported in the future; and
- Whether grantee will receive funding for future projects.

*Evaluation and requests to fund future projects will not be based solely on attaining Goals and/or Objectives if satisfactory justification is provided.
