The health department continues to offer weekly COVID-19 testing and vaccination — jacoحد.org/events. Metro vaccine sites are available at vaccinatekc.org. [Click here](#) to view the KCMO COVID-19 Dashboard for more vaccination and case rate information.

Response Notes

With the new school year starting up, we are seeing more children testing positive for COVID-19 in recent weeks (kids ages 5-18 accounted for 7.6% of all cases on 8/7 and 14.3% of all cases on 9/4). It's not the highest percentage of cases we've seen for this age group, but is something to watch for.

This week we had **307 new cases**. The 7-day case rate decreased from **134.1** (week of 8/28) to **121.5** (week of 9/4).

The Health Department is actively distributing free rapid tests and masks to community members and partners. Residents can visit <https://jacoحد.org/masks/#section1> or call (816) 404-6416 to find the nearest location where these resources are available.
