- TO: Barbara Casamento, Purchasing Administrator
- FROM: Michele Newman, Director, Parks + Rec
- DATE: April 4, 2023
- RE: Sole Source Audacy/KZPT

Parks + Rec is requesting that this Resolution for Audacy/KZPT be approved once again as a Sole Source. The event, "Christmas in the Sky" originated from Entercom-Kansas City (now Audacy-Kansas City), and it was their original idea. They co-created this event and have ownership in its success.

Audacy provides thousands of dollars in promotional announcements and live interviews to promote the event. They also produce the 15-minute holiday fireworks soundtrack, carry the holiday fireworks program live, simulcasting on the KZPT airwaves, and they contract with the fireworks provider, running a like dollar amount of airtime to be used at our discretion throughout 2024.

This has been a successful inter-agency relationship for 25 years and is consistent with the Chapter 1030.1 of the Jackson County Code – Sole Source.

#### Jackson County Parks + Rec AUDACY KANSAS, LLC

#### **Request Summary**

A Resolution authorizing the County Executive to approve a partnership agreement between Jackson County, Missouri, and Audacy-Kansas City dba: KZPT of Kansas City, Missouri for use by the Parks + Rec Department for the 2023 Christmas in the Sky event.

This year, we are proudly celebrating the 26th Anniversary of Christmas in the Sky, presented by Jackson County and Audacy-Kansas City, dba, KZPT 99.7 The Point. Christmas In the Sky serves as the Grand Opening for Christmas in the Park. The event features a 2-hour Holiday Musical Stage Production, the arrival of Santa and the First Gift of Christmas, and a spectacular fireworks display, synchronized to holiday music, and simulcast on KZPT. This RLA would authorize a payment in the amount of \$24,500 to KZPT to provide the fireworks, holiday music soundtrack and simulcast, as well as on-air and on-line promotional services for the event.

Jackson County is entering into an Advertising Trade Agreement with Audacy/KZPT. Audacy-Kansas City will provide Jackson County Parks + Rec with \$24,500 worth of airtime to be used at the discretion of Jackson County Parks + Rec in 2024 on KZPT/99.7 The Point, WDAF/106.5 The Wolf, and KCSP/610 Sports. This advertising will greatly benefit a variety of Park events and attractions.

Parks + Rec is requesting that this Resolution be approved once again as a Sole Source. The event, "Christmas in the Sky," originated from the radio station, who brought the idea to Parks + Rec in 1997 to celebrate the opening of Jackson County's 10th Christmas in the Park event. Audacy/KZPT has ownership in the creation and the success of this event. It has been a successful inter-agency agreement for 25 years, and is, once again, a sole source partnership.

Christmas in the Sky and Christmas in the Park have become a family holiday tradition for more than 200,000 patrons annually.

TERM: This agreement will be for the Christmas in the Sky event on November 23, 2023, with the Parks + Rec Department having access to Advertising Services throughout the year in 2024.

Transferring \$300,000 from the 3% State Mandated Contingency account in the General Fund to the Department of Public Works for the purpose of making emergency sewer repairs to the Historic Truman Courthouse in Independence by Rand Construction, a county term and supply vendor and paying for other costs of clean-up and temporary operations.

#### **Request Summary**

This resolution authorizes a \$300,000 transfer from the 3% State Mandated Contingency account in the General Fund to the Historic Truman Courthouse facility operations account in Public Works for the purpose of clean-up and repairs due to a sewer line break that occurred under the building in March of 2023. A total of \$273,625 will be used to contract with Rand Construction, a County term and supply plumbing contractor for necessary repairs to the sewer lines and property restoration. The remainder of the funds will be used for contract clean-up of the courthouse after the sewer break and the rental of two port-a-potties for use by the public as there are currently no operating and publicly accessible bathrooms in the building.

Re: Truman Courthouse – Water Damage Restoration REV3

Dear Mr. Chrisman,

We propose to furnish the supervision, labor, materials, equipment and insurance necessary to complete the work as follows:

- Camera existing sewer lines and investigate actual pipe routing.
- Install dust protection in the mechanical room and office area.
- Relocate existing furniture to the south side of the office space. All furniture to have personal affects, computer equipment, etc. removed by others and all power and IT cabling disconnected by others.
- Remove existing glass door and adjacent glass, store and reinstall after completion of line replacement.
- Remove existing carpet from the door into the office space north and VCT in corridor.
- Remove end sections of rolling file cabinets, track and platform below. All files to be removed by others. Save rolling file system for reinstallation.
- Layout, sawcut and remove concrete slab on grade as required for access to pipe underslab. Concrete is assumed to be no more than 6" thick and the trench is proposed to be 2' wide. Concrete to be removed from riser in mechanical room to the landing. Intent is to leave the landing and stairs at the landing in place and tunner underneath. Continue slab removal in the hallway along assumed pipe to the exterior wall.
- Due to access constraints, all excavation will be by hand including tunneling under landing, interior and exterior walls. Stockpile spoils along the side of the trench. We have assumed soil will be suitable for backfill.
- Replace drain line from riser to the exterior of the building at the sidewalk. Line replacement on the exterior will include pipe all the way to and including the vertical line at the sidewalk.
- Exterior work to include barricades, excavation to pipe including necessary shoring, tunneling under building foundation, pipe replacement, backfill, compaction and seeding.

Commercial

- After pipe is replaced, on the interior, backfill with existing soil, 6" of gravel, install vapor barrier, rebar dowels and pour back concrete.
- Remove lower 2' of gyp board walls, shown in orange, and replace with new.
- Paint above mentioned walls to match existing.
- Remove low 2 rows of wall tile only and backing in the bathrooms and replace with new. We cannot guarantee a match. Selection to be by owner.
- Install new VCT, shown in green.
- Install new Carpet, shown in yellow.
- Reinstall rolling file system. Reinstall furniture in office space.

The price to complete the work above is \$273,625.00.

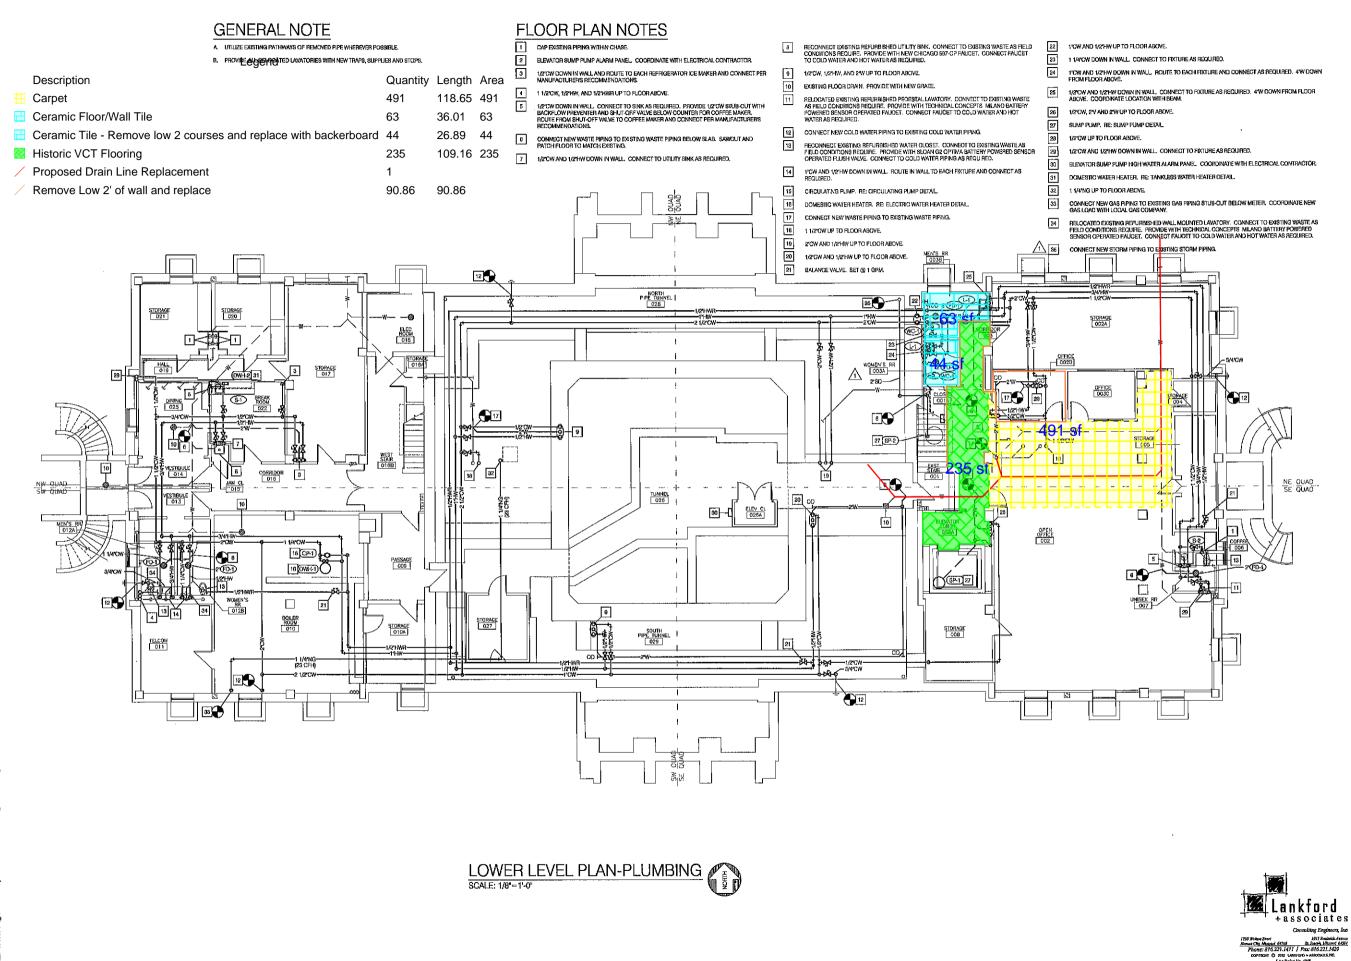

#### **CLARIFICATIONS**

- We have not included any design, engineering, permits, bonds, taxes, etc. We have assumed that the county will handle all permitting that might be needed for sidewalk and road closures.
- All work to be completed during normal working hours.
- Access is assumed to be the stairs and the elevator as it allows. All surfaces will be protected.
- New finish selections to be by others. It will most likely be difficult to find exact matches when tying into existing finishes, i.e. carpet, ceramic tile, etc.
- Wood trim to be reinstalled by others.
- Due to the nature of this project, not having current or accurate plans and details, we are proposing this work be completed on a Time and Material basis Not to Exceed, assuming the scope stays within the scope details above and per the latest marked up drawing labeled "Plan view TCH ground floor plumbing", also attached. Any work outside of this scope will require a change order if the associated cost shuold exceeds the NTE amount.

Thank you for the opportunity to provide you with this proposal. Please do not hesitate to contact our office should you have and questions or concerns.

Respectfully submitted, RAND CONSTRUCTION COMPANY
