To: Eric L. Johnson <ELJohnson@jacksongov.org>; Samuel D. Davis <SDavis@jacksongov.org>

Cc: Brian Gaddie <BGaddie@jacksongov.org>

That size is a structural plate that has to be assembled...the one I suggested is close to the same and availability in prebuilt sections...

Sam:

I checked the pipe sizes on the Winwater order as requested. The 7-foot diameter pipe shown for **Jim Owens Road is correct.**

However, the proposed pipe for Cummings Road is smaller than the existing pipe. The current pipe is a 12'-10" x 8'-4". This calculates to a 154" x 100". Winwater proposed a 142" x 91" which is smaller in both dimensions. I recommend that you purchase a **157" x 101" corrugated metal arch pipe.**
