What time period does this program run: All Year

Provide program description: These funds will support the home-delivered meals service. The service includes intake and assessment of the client, preparation of the meal, delivery of bulk food items by the caterer to the senior center; packaging of individual meals at the senior center, and delivery of the meal to the home of the client. Meals are delivered Monday through Friday. Meals are provided to eligible residents of the county over the age of 60 and older and/or disabled adults between the ages of 18 and 59, inclusive. The rapid expansion of the 60+ population, referenced as the "aging of the baby boomers", has increased the demand for home-delivered meals. The available state and federal funds has not increased in response to the actual and projected population expansion.

Describe the benefits of this program to Jackson County Missouri: The MARC Area Agency on Aging is charged to assist frail older persons, many with chronic health conditions, to remain in the least restrictive environment for as long as possible. The availability of reliable nutrition is paramount to being able to remain in their own homes and preventing institutionalization. For many of our clients the meal may be a major factor in remaining out of a nursing home.

Describe target population to be served: The target population is older adults (aged 60 and above) confined to their homes due to physical and/or mental incapacity and lacking resources to provide or prepare nutritious meals for themselves. Recent data estimates the age 60 and over population of the County in excess of 100,000. National research estimates that 15 to 20 percent of the senior population is in need of community support and assistance as a factor in their long-term care. The program also provides services to disabled adults, aged 18 to 59, who meet the same criteria. Current population data estimates there are 58,000 disabled persons residing in the County. We do not have sufficient research information to make the same types of projections and inferences for the disabled population.

What are the qualifications for participants: Federal regulations require that priority be given to those in the greatest social and economic need, which has been further defined as low-income, ethnic minorities, those with limited English speaking ability, the disabled, and the rural isolated elderly.
